Sign Law: Matt Johnson was present. He provided a draft of the sign law changes that had been discussed at previous meetings. The board agreed that those changes were appropriate. CEO Bennett brought up the issue of temporary signs. He stated that according to a letter from the AG, political signs cannot be regulated. Discussion ensued regarding allowable restrictions. The zoning law currently provides that political signs can be put up at any time but must be removed within 30 days after the election. The board also discussed issue signs since they involve free speech. CEO Bennett also stated that there is a problem with various signs being put on telephone poles. He said that National Grid provided a letter allowing certain signage on poles. Discussion ensued regarding ownership of poles, location of poles, and signs on public properties. CEO Bennett will get a copy of the letter to Matt Johnson and Chairman Scriber. Chairman Scriber asked Matt Johnson to research temporary sign restrictions such as size, setback, number of signs allowed, placement, and removal, and develop a recommendation regarding temporary signs. This matter will be placed on the agenda for next month.

Noise Law: Matt Johnson distributed copies of the draft of the proposed Town of Parish Noise Control Law. Pat French made a motion to move this to the Town Board for review and comments and to respectfully request that the Town Board provide comments to the Planning Board prior to the January 2014 Planning Board meeting. Paul Gage seconded the motion. Motion carried.

The DMV told him he could work anywhere including his garage. Chairman Scriber asked Matt Johnson to research the issue with the DMV law. The board looked at the definition of home-based businesses in the zoning law and discussed if this site plan fits the definition. This matter will be placed on the agenda for next month.
