Although the transcription is fairly accurate, in some cases it is incomplete or inaccurate due to inaudible passages or transcription errors, and in some cases, words spoken by one participant may be inaccurately attributed to another. It is posted as an aid to understanding the proceedings at the meeting, but should not be treated as an authoritative record.

1

00:00:15.900 --> 00:00:16.619  
Supervisor Phillips: 30th.

2

00:00:17.340 --> 00:00:18.690  
Matthew Johnson: That sounds about right.

3

00:00:20.370 --> 00:00:27.510  
Matthew Johnson: And yeah. At that meeting, we came up with about seven or eight changes.

4

00:00:29.010 --> 00:00:33.270  
Matthew Johnson: And if you want, I can sort of run through what those wore it

5

00:00:33.540 --> 00:00:36.330  
Supervisor Phillips: Would give us a page in a, you know, so

6

00:00:39.630 --> 00:00:40.290  
Matthew Johnson: First

7

00:00:40.410 --> 00:00:44.820  
Codes officer: What the scope officially call this order. You know, there's not a quorum.

8

00:00:46.440 --> 00:00:49.560  
Supervisor Phillips: Well, it's a workshop at this point right or is it a meeting.

9

00:00:50.520 --> 00:00:55.410  
Codes officer: The recording until just a minute ago because of freeform and flowing and

10

00:00:56.760 --> 00:01:04.260  
Codes officer: If you want to consider this to be the start of whatever it is we're doing all the news of recording otherwise not up to you.

11

00:01:08.100 --> 00:01:10.860

Supervisor Phillips: Whatever you think Paul, I don't care. It's so

12

00:01:18.690 --> 00:01:23.280

Codes officer: I had started the recording because it sounded like we were starting to talk about the substance of wires.

13

00:01:25.560 --> 00:01:28.950

Supervisor Phillips: Oh, I'm here, you're in and out. I can't understand all of what you're saying.

14

00:01:32.250 --> 00:01:32.850

Supervisor Phillips: Well, there is

15

00:01:34.440 --> 00:01:43.050

Codes officer: I was just saying that I hadn't started the recording because the meeting hadn't been called order. We didn't do a roll call. There was no pleasure is none of that.

16

00:01:43.350 --> 00:01:52.020

Codes officer: But it seemed like we are transitioning into discussion of what it is we're all together for tonight. So I started the recording and watch the recording is running out.

17

00:01:52.980 --> 00:01:53.550

Supervisor Phillips: Or whatever.

18

00:01:54.930 --> 00:01:58.950

Supervisor Phillips: Okay, but it's got to be a workshop, because I don't have a quorum, so. Okay, thank you.

19

00:02:00.540 --> 00:02:00.900

Okay.

20

00:02:02.040 --> 00:02:04.920

Matthew Johnson: Okay, the first thing was is on page three.

21

00:02:07.500 --> 00:02:07.890

Supervisor Phillips: Hey,

22

00:02:08.520 --> 00:02:11.400

Matthew Johnson: And that was the definition of campground.

23

00:02:14.010 --> 00:02:25.470

Matthew Johnson: And we change that the number from two to three. So the campground is three or more cabins recreational camping vehicles tense, etc.

24

00:02:26.880 --> 00:02:41.460

Supervisor Phillips: Okay, the question was raised. Why, why you guys had it at two, then we discussed possibly increasing it. But you guys did all the little hard work on this coming up with this recommended plan. Was there a reason why you went to to

25

00:02:43.500 --> 00:02:45.000

Supervisor Phillips: Me information on that.

26

00:02:46.380 --> 00:02:53.370

Matthew Johnson: That, yes, that that I think it's been too for for several years.

27

00:02:54.570 --> 00:03:03.150

Matthew Johnson: If Paul gauges on maybe he could correct me on that. But I think it just, it had been to for a long time. I think I'm not sure.

28

00:03:06.000 --> 00:03:06.150

Supervisor Phillips: Oh,

29

00:03:08.730 --> 00:03:13.050

Paul Gage: Yes, it had been it had been to for a long time and we just decided

30

00:03:14.160 --> 00:03:16.680

Paul Gage: That maybe it would be best to go to 30

31

00:03:17.370 --> 00:03:19.980

Supervisor Phillips: Is you to say that it did this board decide that

32

00:03:21.690 --> 00:03:22.080

Matthew Johnson: The

33

00:03:22.530 --> 00:03:26.130

Paul Gage: I believe it was your board that decided that had that put in there.

34

00:03:26.520 --> 00:03:28.950

Supervisor Phillips: Okay, do you see any problem with us going to three.

35

00:03:30.330 --> 00:03:32.730

Paul Gage: No, it's fine with me. I like I said

36

00:03:34.230 --> 00:03:35.880

Supervisor Phillips: Okay, thank you.

37

00:03:37.050 --> 00:03:49.290

Matthew Johnson: Yeah, you just you're being, you know, you're going to be a little bit more lenient you're going to allow people to have to campers on a lot and not be considered a campground. So it just makes it makes it a little more lenient

38

00:03:49.650 --> 00:03:51.990

Supervisor Phillips: On people right we're doing three

39

00:03:52.410 --> 00:03:54.240

Matthew Johnson: Yes. Okay. Yep.

40

00:03:55.980 --> 00:04:00.510

Matthew Johnson: Okay, so the next thing we're skipping down quite a ways

41

00:04:02.190 --> 00:04:04.080

Matthew Johnson: So we're going to go to

42

00:04:05.160 --> 00:04:06.720

Matthew Johnson: Page 17

43

00:04:08.040 --> 00:04:11.190

Supervisor Phillips: Wait, can I can I back up up man, and I apologize.

44

00:04:12.360 --> 00:04:20.040

Supervisor Phillips: This is what what size is a lot. What is it, is it you know hundred feet by 100 feet. I have no idea.

45

00:04:21.360 --> 00:04:21.600

Supervisor Phillips: We

46

00:04:23.340 --> 00:04:31.230

Supervisor Phillips: Can which are located three or more cannons. You don't have to. It's, it's now it's referred to as a camp, bro.

47

00:04:31.680 --> 00:04:34.860

Matthew Johnson: Yup, that's any any lot, no matter what the size

48

00:04:35.070 --> 00:04:35.820

Supervisor Phillips: Okay. All right.

49

00:04:39.450 --> 00:04:41.220

Matthew Johnson: Okay, so the next thing.

50

00:04:44.010 --> 00:04:45.450

Matthew Johnson: A

51

00:04:48.810 --> 00:04:52.290

Matthew Johnson: Page 17 and 18

52

00:04:57.300 --> 00:05:00.660

Matthew Johnson: It's a section about accessory uses and structures.

53

00:05:02.250 --> 00:05:02.970

Supervisor Phillips: Yep, and

54

00:05:03.120 --> 00:05:08.340

Matthew Johnson: We coming out of that meeting in July, we added a number six to that.

55

00:05:10.920 --> 00:05:17.640

Matthew Johnson: Where we said that you can have five of these per each 1.5 acres of the lot.

56

00:05:20.130 --> 00:05:21.120

Supervisor Phillips: number you want

57

00:05:21.810 --> 00:05:25.530

Matthew Johnson: That it's a section 602 number six.

58

00:05:26.640 --> 00:05:27.420

Number six.

59

00:05:28.500 --> 00:05:29.730

Supervisor Phillips: Which should be a maximum of five.

60

00:05:32.040 --> 00:05:37.020

Supervisor Phillips: So is that it wasn't five was that it was we increase that

61

00:05:42.420 --> 00:05:55.680

Matthew Johnson: I think we originally that the town originally had it at five, but it was thought that that was too strict and you wanted to will allow more if you had someone had a larger and larger and larger lot

62

00:05:56.310 --> 00:06:08.100

Matthew Johnson: Okay, so, so now it kind of goes up intake and, you know, the bigger your lot. The more you can have up to a point where we in that last sentence. And number six, we say

63

00:06:09.450 --> 00:06:17.160

Matthew Johnson: You can have more but no more an absolute limit of 30% of the lots size.

64

00:06:18.000 --> 00:06:22.500

Supervisor Phillips: Said okay because I know you guys said it a little bit different. Is that okay

65

00:06:23.520 --> 00:06:29.370

Supervisor Phillips: With that change is there might be a reason why you had limited it to what you had prior to, I guess I'm looking for that.

66

00:06:30.510 --> 00:06:31.110

Matthew Johnson: I think

67

00:06:31.800 --> 00:06:36.450

Matthew Johnson: It in the law right now there's there's no limit. I believe

68

00:06:38.730 --> 00:06:39.180

Correct.

69

00:06:40.410 --> 00:06:48.180

Matthew Johnson: Yeah, there's no limit so that the town town board wanted to, to put a little bit of a limit on that.

70

00:06:51.660 --> 00:06:58.740

Supervisor Phillips: But did you have five before or was it less issue be a maximum of it says five did we change.

71

00:07:00.870 --> 00:07:01.710

Matthew Johnson: Yes.

72

00:07:05.280 --> 00:07:10.410

Matthew Johnson: Yes, in the current version. There's, there's no limit.

73

00:07:13.530 --> 00:07:15.660

Matthew Johnson: And that changed in July.

74

00:07:16.530 --> 00:07:20.280

Supervisor Phillips: I thought there was three and we changed it to five.

75

00:07:21.510 --> 00:07:22.260

Supervisor Phillips: And they wrong.

76

00:07:23.880 --> 00:07:26.370

Paul Gage: No, no, you're not marrying there.

77

00:07:26.430 --> 00:07:27.000

Paul Gage: There was

78

00:07:27.210 --> 00:07:32.970

Paul Gage: There was three. It's what we had. And then, and then the town board wanted to change it to

79

00:07:32.970 --> 00:07:48.240

Supervisor Phillips: 525 feet in a ball for one and a half acres any lot can only be 30 okay because you had had it at three, is there any issue with boy, I hope somebody next next door to me doesn't put on five

80

00:07:49.380 --> 00:07:56.580

Supervisor Phillips: Structures on a 1.5 acre lot I'd be a little bit pissed skews my language. But my question is,

81

00:07:57.690 --> 00:08:17.100

Supervisor Phillips: In my mind, I can't think of how big a 1.5 acre is I don't think it's very big is five too many should have stayed at three is my question. One for 1.58 Speakers Yes, it was there a reason for you

guys leaving it at three versus US possibly considering changing it to five.

82

00:08:18.030 --> 00:08:25.170

Paul Gage: We we we wanted it three and the discussion was the night of day in July.

83

00:08:26.400 --> 00:08:34.200

Paul Gage: Five may be too many on 1.5 because of rain, you know, because of runoff in

84

00:08:35.610 --> 00:08:38.160

Paul Gage: impervious surfaces on a lot so

85

00:08:39.390 --> 00:08:45.900

Paul Gage: Basically I there was the discussion went on and I think it ended at five. But like I said,

86

00:08:46.680 --> 00:09:08.760

Paul Gage: One of the, one of the things we we we use the deal with is we set up a a parameter and and and what happens is once the if somebody wanted if we had it at three and somebody wanted to go to five and they can go to the CVA for approval. See, this is

87

00:09:10.830 --> 00:09:35.040

Paul Gage: Matt works with us a lot because what we're trying to do is set to town up for the best possibility. So our talent pound looks good, then your, your pressure valve is dizzy me a so that your, your, your zoning is an issue that it can be changed, down the road. I'll shut up.

88

00:09:36.090 --> 00:09:48.150

Supervisor Phillips: No, no, no. That's why I'm asking you guys might know more about working on this plan for as long as you did, should we even be looking at making it a five vs leaving it as a three. I don't think we addressed it and that

89

00:09:48.990 --> 00:09:58.110

Supervisor Phillips: That way, when the other board members were here and I didn't think about it but 1.5 acres is not very big. And if you're going to put five structures on it. Um,

90

00:09:59.730 --> 00:10:01.650

Supervisor Phillips: I don't think that has a very good appearance.

91

00:10:03.810 --> 00:10:13.380

Matthew Johnson: There is a there is a limit, though, where you can't you can't have more than 30% of the lot size so that those capital somewhat

92

00:10:15.960 --> 00:10:21.030

Supervisor Phillips: Here, but if I had small structures, can I have, I could probably fit five on there. Right. I know.

93

00:10:22.350 --> 00:10:25.860

Matthew Johnson: The smaller the structure, the more of them. You can you can put on there.

94

00:10:26.340 --> 00:10:30.450

Supervisor Phillips: Yeah, maximum five next Five on five, yeah.

95

00:10:31.350 --> 00:10:31.770

Matthew Johnson: Now that was

96

00:10:31.950 --> 00:10:38.520

Matthew Johnson: A thing. Yeah, the planning board had three in the town board just thought that was a little too strict. I guess.

97

00:10:39.240 --> 00:10:48.720

Supervisor Phillips: Yeah, well, I know the reasoning that was discussed was for one specific planning board. And what do you want to do with this property, which is not setting well with me because we're supposed to be here for the whole town that just for one person.

98

00:10:49.290 --> 00:10:52.680

Supervisor Phillips: So like I'm trying to get clarification, would there be

99

00:10:53.940 --> 00:10:59.340

Supervisor Phillips: Is there a reason why you guys left it at three prior to us meeting in July. Let's put it that way. And I guess.

100

00:11:00.450 --> 00:11:11.520

Paul Gage: Yeah, well it's the percentage is is Matt. Matt controlling that with the with the percentage and and that's something that can be done also.

101

00:11:12.810 --> 00:11:29.550

Paul Gage: Like I said, if we we originally said three because it was it was brought up during our negotiate or our planning period. And so like I

said, if, if the 30% if the board is happy with that. That said, that will we can move along.

102

00:11:30.570 --> 00:11:38.010

Supervisor Phillips: So leave it at five. Okay. But the other thing too is a geological area of it that that weighs in on what I think.

103

00:11:40.350 --> 00:11:52.830

Supervisor Phillips: For water runoff and things. Suppose this don't have real steep slide Hill facing somebody else's property. What do you do in that area having a slide down the hill. I don't know. You know, I mean,

104

00:11:54.870 --> 00:12:04.080

Supervisor Phillips: No, I don't want to put a thorn in the side by side, but I'm just something you have to look at what do you think man well

105

00:12:05.190 --> 00:12:15.840

Paul Gage: They like they say we originally said three and in and we were happy with it. I, I don't want to get an argument over it, but like I said three

106

00:12:17.160 --> 00:12:32.850

Paul Gage: Outside structures on a lot to me in there. Again, if you want to go the four in the the Zoning Board of appeals can look at it and see if they if it warrants it right

107

00:12:34.800 --> 00:12:36.060

So would you, if I can enter

108

00:12:38.430 --> 00:12:41.640

Codes officer: Are you, I think they went to this gym.

109

00:12:42.030 --> 00:12:43.770

Supervisor Phillips: I know I'm teasing. Which officer.

110

00:12:45.660 --> 00:13:02.160

Codes officer: I don't know how many people are online. I can't tell. But I think one of the reasons they went to a higher number was. For example, if an owner has 100 acre lot and you're limiting them to three. It was really hard to limit you know you got 100 acres. Why can't I have

111

00:13:03.480 --> 00:13:04.470

Codes officer: A higher number

112

00:13:05.970 --> 00:13:12.930

Codes officer: So that's what I think they were thinking of when they rose it to a nice number of five, you know,

113

00:13:13.950 --> 00:13:17.400

Codes officer: And it's by week to, you know, by my size a lot, possibly

114

00:13:18.090 --> 00:13:19.080

Codes officer: Yeah, but it says

115

00:13:19.470 --> 00:13:20.010

Protocol.

116

00:13:21.090 --> 00:13:30.000

Supervisor Phillips: It says per 1.5 ACRES. Jim. So in other words, if I got 50 acres. I could have five on each acre each 1.5 acre correct

117

00:13:30.990 --> 00:13:35.910

Matthew Johnson: Yes, I'll pop to a point where you can't have more than 30%

118

00:13:37.050 --> 00:13:37.560

Supervisor Phillips: Okay.

119

00:13:37.950 --> 00:13:38.580

Capsule

120

00:13:39.780 --> 00:13:40.140

Matthew Johnson: Okay.

121

00:13:43.140 --> 00:13:47.820

Supervisor Phillips: So we're paint your the planning board and you guys were okay with putting it to five.

122

00:13:50.610 --> 00:13:53.370

Paul Gage: Yes, we're planning boards. Good. Okay.

123

00:13:53.730 --> 00:13:56.160

Supervisor Phillips: All right, I'm sorry. Go ahead man.

124

00:13:58.050 --> 00:14:02.910

Matthew Johnson: Okay. Um, so that was that one. Let's see here.

125

00:14:06.060 --> 00:14:07.890

Matthew Johnson: The next would be

126

00:14:13.740 --> 00:14:17.520

Matthew Johnson: Section 610 on page 21

127

00:14:23.970 --> 00:14:28.170

Matthew Johnson: Page 21 section 610 and we change that a little bit.

128

00:14:29.880 --> 00:14:44.070

Matthew Johnson: instead of requiring the written acknowledgement of the parish fire department, we were saying access to the structure must meet international fire code STANDARDS AND THAT WAS JOHN Dunham's suggestions suggestion.

129

00:14:45.210 --> 00:14:46.860

Supervisor Phillips: Okay. Any problem with that.

130

00:14:49.890 --> 00:14:51.780

Supervisor Phillips: First, as well, you know,

131

00:14:52.860 --> 00:15:02.460

Paul Gage: Because we always use the we. I was as a planning board. We got people with anything like that. We got into the fire department so

132

00:15:03.720 --> 00:15:06.420

Paul Gage: We don't have a problem with it. Okay, thank you.

133

00:15:10.980 --> 00:15:13.830

Matthew Johnson: OK, the next thing was

134

00:15:16.560 --> 00:15:19.980

Matthew Johnson: Page 24

135

00:15:22.020 --> 00:15:24.270

Matthew Johnson: Page 24 sections 620

136

00:15:25.710 --> 00:15:30.480

Matthew Johnson: We're, we're talking about tractor trailers on being stored on residential lots

137

00:15:31.650 --> 00:15:42.480

Matthew Johnson: We added the sentence that says that the tractor trailer is considered the power unit and the trailer. So not just a trailer, but the whole thing. All of the

138

00:15:43.830 --> 00:15:45.390

Matthew Johnson: The cab and the trailer

139

00:15:45.750 --> 00:15:48.720

Supervisor Phillips: It's not just the tractor or just the trailer. It's the whole thing.

140

00:15:49.170 --> 00:15:50.340

Right, okay.

141

00:15:51.660 --> 00:15:52.710

Supervisor Phillips: You guys are okay with that.

142

00:15:53.970 --> 00:15:55.080

Paul Gage: Yes, that's fine.

143

00:15:57.390 --> 00:15:59.730

Supervisor Phillips: Yeah, thank you. Alrighty.

144

00:16:02.760 --> 00:16:08.250

Matthew Johnson: Okay. And then the next thing is the right at the bottom of that page 24

145

00:16:10.380 --> 00:16:14.520

Matthew Johnson: Section 22 section 622

146

00:16:17.820 --> 00:16:20.400

Matthew Johnson: And that we had a

147

00:16:21.810 --> 00:16:28.410

Matthew Johnson: Allowing the number of hunting, fishing, hunting and fishing cabins per lot

148

00:16:31.020 --> 00:16:34.890

Matthew Johnson: And we're saying a maximum of one per

149

00:16:38.310 --> 00:16:42.750

Matthew Johnson: One for the purse first three acres and then

150

00:16:45.960 --> 00:16:48.630

Matthew Johnson: Two. If you've got three acres or more

151

00:16:51.660 --> 00:16:52.470

Matthew Johnson: So if you have

152

00:16:53.670 --> 00:16:59.100

Matthew Johnson: three acres or last you can have one of those. If you've got more than three acres. You can have to

153

00:17:01.950 --> 00:17:02.610

Supervisor Phillips: It. Okay.

154

00:17:08.490 --> 00:17:09.780

Supervisor Phillips: Are you guys okay with that.

155

00:17:11.760 --> 00:17:16.770

Supervisor Phillips: Okay, one hunting, fishing, I'm sure a lot less than three acres

156

00:17:19.230 --> 00:17:20.400

Supervisor Phillips: That's great.

157

00:17:21.600 --> 00:17:24.810

Supervisor Phillips: Are you guys okay without planning board map.

158

00:17:28.680 --> 00:17:37.140

Paul Gage: Like I say, that was Mr. Woods desire. So I nobody said anything and the planning board. So I guess there's not an issue with

159

00:17:44.040 --> 00:17:49.380

Matthew Johnson: Okay. And the last thing is right under that on page 25

160

00:17:53.310 --> 00:18:02.490

Matthew Johnson: Where we wanted to clarify the language there where you're saying that no overnight accommodation

161

00:18:05.760 --> 00:18:18.930

Matthew Johnson: is permitted in the town for less than 30 days, except in a hotel or a bed and breakfast and the group in July, wanted to add that second sentence that says

162

00:18:20.430 --> 00:18:29.730

Matthew Johnson: Hotels and Bed and Breakfast says defined in Section 220 may offer accommodations for any duration. They said they just wanted

163

00:18:31.290 --> 00:18:37.890

Matthew Johnson: To sort of add that sentence saying that you can, if it's a hotel or a bed and breakfast.

164

00:18:39.570 --> 00:18:40.290

Supervisor Phillips: And that's okay.

165

00:18:41.760 --> 00:18:44.370

Supervisor Phillips: Everybody okay with that. I'm fine.

166

00:18:45.630 --> 00:18:45.900

Paul Gage: Yes.

167

00:18:47.580 --> 00:18:47.940

Supervisor Phillips: Yeah.

168

00:18:49.590 --> 00:18:50.190

Supervisor Phillips: Okay.

169

00:18:53.220 --> 00:18:58.500

Matthew Johnson: So that was that was everything from the discussion, the last

170

00:19:00.300 --> 00:19:08.460

Matthew Johnson: In July, one thing I just noticed today when I was looking at this, that I would bring to your attention.

171

00:19:13.530 --> 00:19:15.570

Matthew Johnson: If you look on page 14

172

00:19:25.410 --> 00:19:31.830

Matthew Johnson: Page PAGE 14 that table that shows the different uses and the different zoning districts and what's allowed where

173

00:19:42.870 --> 00:19:43.740  
Matthew Johnson: Okay, there

174  
00:19:44.070 --> 00:19:44.340  
Yep.

175  
00:19:45.360 --> 00:19:46.980  
Matthew Johnson: If you look at the table under

176  
00:19:48.780 --> 00:19:50.880  
Matthew Johnson: Manufactured home park.

177  
00:19:51.900 --> 00:19:52.200  
Supervisor Phillips: Yep.

178  
00:19:53.160 --> 00:20:01.920  
Matthew Johnson: And the to the right. The it says spec, which means special use permit in the art zone.

179  
00:20:02.370 --> 00:20:02.760  
Supervisor Phillips: Yes.

180  
00:20:03.390 --> 00:20:08.400  
Matthew Johnson: And then next to that. It's a Z. They just needs a zoning permit and the RM you

181  
00:20:09.210 --> 00:20:23.220  
Matthew Johnson: Okay, yeah, I would change that z to, uh, to us, SP EC and require that should require a special use permit in the RM us zone as well. And that might have been an oversight.

182  
00:20:24.990 --> 00:20:32.520  
Matthew Johnson: Sure, but I would definitely change that to be to say spec in that box.

183  
00:20:34.350 --> 00:20:35.490  
Paul Gage: The blackboard agree.

184  
00:20:37.260 --> 00:20:40.680  
Supervisor Phillips: Okay, yeah, you see it, Richard. Yeah.

185  
00:20:45.390 --> 00:20:47.490

Supervisor Phillips: Okay, anything else.

186

00:20:48.840 --> 00:20:57.300

Matthew Johnson: That's everything that I have from my notes that we talked about in July. I don't know if anybody else has anything different extra

187

00:20:58.500 --> 00:20:59.070

Supervisor Phillips: Let me look

188

00:21:07.140 --> 00:21:11.190

Supervisor Phillips: A few tables here and there, but I'm sure you've got them all. So I'm not even gonna go there.

189

00:21:11.850 --> 00:21:13.110

Supervisor Phillips: Yeah, there was there was one

190

00:21:13.710 --> 00:21:18.480

Matthew Johnson: There was a section that was number wrong the crematory section. And I think I fixed that.

191

00:21:38.760 --> 00:21:41.670

Supervisor Phillips: There was a question on page six,

192

00:21:43.860 --> 00:21:58.290

Supervisor Phillips: Their candles any lot building structure enclosure or promises were upon or were in our caps eight or more dogs. It was a question on it, but I don't know what the question was. I got a question mark for the eight

193

00:21:59.160 --> 00:21:59.460

Hey,

194

00:22:00.510 --> 00:22:01.620

Matthew Johnson: Give me the definition of

195

00:22:01.710 --> 00:22:03.210

Supervisor Phillips: Candle candle.

196

00:22:04.350 --> 00:22:09.510

Matthew Johnson: Okay, yeah, I didn't, I didn't have that in my notes, but that I may have missed that.

197

00:22:09.960 --> 00:22:12.120

Supervisor Phillips: Well, that's fine. Is there is, is there a

198

00:22:13.350 --> 00:22:18.810

Supervisor Phillips: Is eight. Okay. Should it be less. I'm not sure what the question was, were an

199

00:22:21.330 --> 00:22:23.490

Paul Baxter: Egg and Margaret's law and how they define kennels

200

00:22:24.660 --> 00:22:28.650

Supervisor Phillips: Might have I don't all I got, I got a question mark there.

201

00:22:36.870 --> 00:22:40.980

Matthew Johnson: Yeah, that would be my guess would be somebody wanted it to be less than eight

202

00:22:43.590 --> 00:22:46.230

Supervisor Phillips: So I don't have any notes like and what

203

00:22:47.460 --> 00:22:51.150

Supervisor Phillips: I did my note sheet that I had with it. I don't have my be in my

204

00:22:53.280 --> 00:22:53.880

Supervisor Phillips: Book called

205

00:22:58.380 --> 00:23:04.020

Supervisor Phillips: What is that is that in compliance with whatever Paul's referring to the ag market thing is eight k

206

00:23:05.220 --> 00:23:06.300

Supervisor Phillips: Or should it be lower.

207

00:23:17.520 --> 00:23:25.740

Paul Gage: Jim is that would that be something that falls under egg markets. We discussed that recently because of the new candle going in.

208

00:23:26.670 --> 00:23:27.330

Codes officer: Yeah, and I

209

00:23:27.570 --> 00:23:31.680

Codes officer: Honestly, yeah good market, I'd have to look it up.

210

00:23:33.750 --> 00:23:35.220

Matthew Johnson: Yeah I would, as well.

211

00:23:35.850 --> 00:23:50.970

Supervisor Phillips: I don't have that I don't have the new hearing, Mr Ronan and just a piece of paper and they don't realize okay. I apologize. It was just the question is okay. Bless you. It's okay, no problem. But I had it mark when the eight was underlying in a question mark.

212

00:23:53.910 --> 00:23:55.020

Supervisor Phillips: If not, no problem.

213

00:23:57.990 --> 00:24:01.920

Supervisor Phillips: Unless you're when you're allergic to me or why isn't geez.

214

00:24:05.910 --> 00:24:08.550

Supervisor Phillips: We did the definition of the tractor trailer you did that.

215

00:24:19.800 --> 00:24:24.960

Supervisor Phillips: There was something on page 21 maybe we already did it 610

216

00:24:31.650 --> 00:24:42.000

Supervisor Phillips: It says the structure is located greater than 500 feet was a I've got a crossed out where we performing it to me or did we completely change this paragraph with with john done and put in

217

00:24:42.930 --> 00:24:43.770

Supervisor Phillips: The seat.

218

00:24:43.800 --> 00:24:50.730

Matthew Johnson: stay the same, as far as I'm aware, we just changed the part about the mentioning that international fire code standards.

219

00:24:50.820 --> 00:24:52.500

Supervisor Phillips: Okay so 500 is fine.

220

00:24:53.010 --> 00:25:08.580

Supervisor Phillips: Yep. Okay. Thank you. Yep. It was from from codes officer to fire department you're stating the adequate access can be provided. Maybe that's part of that paragraph. Okay, nevermind. Bear with me. I talked to myself a lot

221

00:25:11.340 --> 00:25:12.060

Codes officer: Yeah.

222

00:25:12.930 --> 00:25:22.740

Codes officer: Thank you. New York State law because that's what New York State follows now is the New York State law, once again, not the international fire code. It's New York State code.

223

00:25:23.460 --> 00:25:24.150

Okay.

224

00:25:25.740 --> 00:25:27.750

Matthew Johnson: We can change that. It's no biggie.

225

00:25:29.430 --> 00:25:35.640

Codes officer: There was a time that New York did their own then they went to the international code and now they're back with their own code.

226

00:25:36.930 --> 00:25:39.780

Codes officer: That just happened in this year. Back to the New York State code.

227

00:25:47.910 --> 00:25:49.740

Supervisor Phillips: We am okay

228

00:25:52.020 --> 00:25:55.380

Supervisor Phillips: Are you referring to the 500 feet gym or not.

229

00:25:56.910 --> 00:26:08.160

Codes officer: I'm ready, I'm ready. Fine words written or instead of asking the Volunteer Fire Company. It's actually a state fire code in the fire, fire code of New York State.

230

00:26:08.520 --> 00:26:11.160

Supervisor Phillips: Meets gotta meet New York State fire codes. Okay.

231

00:26:12.960 --> 00:26:13.410

Supervisor Phillips: Thank you.

232

00:26:14.760 --> 00:26:15.030

Know,

233

00:26:19.080 --> 00:26:26.910

Supervisor Phillips: 2424 yeah 620

234

00:26:27.960 --> 00:26:33.930

Supervisor Phillips: I'm looking at my other book now. So I don't have the changes that you just read to me. Hold on. Maybe you already did.

235

00:26:35.040 --> 00:26:38.130

Matthew Johnson: That was our unit, the tractor trailer

236

00:26:38.910 --> 00:26:40.020

Supervisor Phillips: Yeah. Hold on a minute.

237

00:26:42.450 --> 00:26:42.810

Supervisor Phillips: For

238

00:26:53.640 --> 00:26:57.900

Supervisor Phillips: We did it. Okay. Sorry. Alright, the next one.

239

00:27:03.750 --> 00:27:07.290

Supervisor Phillips: The formation of defamation of signs on it. And then in man.

240

00:27:09.030 --> 00:27:11.400

Supervisor Phillips: No, I guess that was okay. On page 27

241

00:27:13.290 --> 00:27:16.620

Supervisor Phillips: I'm just looking at the page. I had earmarks to see if we covered

242

00:27:21.990 --> 00:27:23.340

Supervisor Phillips: On page 29

243

00:27:29.430 --> 00:27:43.560

Supervisor Phillips: Under number 12 for signs with lighting. I don't even know that we have them but it says signs must be deemed between the hours of 10pm and 6am we have any led signs. We don't have any, do we

244

00:27:45.930 --> 00:27:46.290

Paul Gage: Yes.

245

00:27:48.720 --> 00:27:49.560

Paul Gage: That would be

246

00:27:51.000 --> 00:27:58.800

Paul Gage: That's usually controlled by the state, but that's it yet. That would be the ones we have at the gas station up in Morocco and

247

00:27:59.460 --> 00:28:00.660

Robin Eaton-Novak: Michelle or Tylenol.

248

00:28:03.150 --> 00:28:13.080

Supervisor Phillips: Okay, any other stories might have a sign good smell my name, one easy might have one and they're supposed to be. I didn't know that there was supposed to be done between 10pm and 6am but ok

249

00:28:14.340 --> 00:28:16.740

Matthew Johnson: Led the LED signs only

250

00:28:17.280 --> 00:28:19.620

Supervisor Phillips: Only this is, I don't know the difference.

251

00:28:21.420 --> 00:28:22.650

Codes officer: Now, correct.

252

00:28:25.080 --> 00:28:32.850

Codes officer: All new all new signs will have to follow the rules, but the old signs, don't. So maybe that's what they were attempting to do will be Paul can answer that.

253

00:28:35.250 --> 00:28:49.080

Paul Gage: Yes, we were that that's actually the like it said it come out in the meeting that a lot of that now is controlled by the New York State do T. In other words, they have to get there. I think we just found out when we were done, Mr Patel's

254

00:28:49.590 --> 00:28:55.470

Paul Gage: Station that they do it now. They signed companies have to go with their regulations.

255

00:28:56.820 --> 00:29:02.520

Supervisor Phillips: Okay. That's what it says in a number 10 So Jim, do we have any signs right now that are led

256

00:29:04.560 --> 00:29:05.430

Supervisor Phillips: You know, hostile

257

00:29:06.090 --> 00:29:09.750

Codes officer: But they weren't regulated because there's no zoning laws to regulate them.

258

00:29:11.400 --> 00:29:14.010

Supervisor Phillips: So they grandfathered in what

259

00:29:14.010 --> 00:29:14.460

Supervisor Phillips: Does that mean

260

00:29:15.480 --> 00:29:15.690

Codes officer: Oh,

261

00:29:17.820 --> 00:29:18.210

Supervisor Phillips: Okay.

262

00:29:18.810 --> 00:29:26.670

Matthew Johnson: In the, in the town I boy, I can't think of anybody any that would be in the town in the village, maybe, but I don't think in the town.

263

00:29:28.260 --> 00:29:29.070

Codes officer: Might be like

264

00:29:33.870 --> 00:29:34.020

Matthew Johnson: A

265

00:29:34.320 --> 00:29:37.140

Supervisor Phillips: Family Restaurant that's in the town. Yeah.

266

00:29:38.730 --> 00:29:39.060

Supervisor Phillips: Okay.

267

00:29:40.350 --> 00:29:40.740

Supervisor Phillips: Very

268

00:29:43.890 --> 00:29:43.980

Supervisor Phillips: Good.

269

00:29:46.230 --> 00:29:50.100

Supervisor Phillips: Anything on that one. And the last 139

270

00:29:55.020 --> 00:29:57.540

Supervisor Phillips: Know, I guess these are just questions that I wrote for myself.

271

00:29:58.860 --> 00:29:59.070

And you

272

00:30:00.930 --> 00:30:13.890

Supervisor Phillips: Know, I think that's it for me. Does anybody else have any, anything else to bring up or question, you know, Paul gauge or gym or Robin, or anybody. Mr. Crack, crack crack up

273

00:30:15.210 --> 00:30:16.650

Supervisor Phillips: Here, see the most your name. It's not their

274

00:30:18.300 --> 00:30:18.870

Supervisor Phillips: Problems.

275

00:30:24.780 --> 00:30:29.250

Supervisor Phillips: Well might take, we've got a pretty good planning board. So, and that's why I'm asking.

276

00:30:31.080 --> 00:30:32.550

Supervisor Phillips: You know, props up

277

00:30:33.570 --> 00:30:43.920

Supervisor Phillips: We're riding board. Well, that's why I'm asking if the changes that we decided on holidays wasn't fair to say, well, this is why we did X noisy reason why we should reconsider going back

278

00:30:45.060 --> 00:30:49.710

Supervisor Phillips: Because they had done it differently than what we came up with, as well as waiting for so

279

00:30:50.310 --> 00:30:50.820

Robin

280

00:30:52.680 --> 00:31:07.440

Paul Gage: We just you have to remember, we work very closely with Matt Johnson and Tokyo commission and we go strictly by their guidelines and and they've always had they've always did a great job of guidance and if something should come up

281

00:31:07.830 --> 00:31:22.230

Paul Gage: It's just also has to do is is either that Matt has to it mats notify notified, or are we find it out. It's a simple process. We get ahold of Matt and we will will change the situation.

282

00:31:23.670 --> 00:31:23.790

Matthew Johnson: You

283

00:31:23.850 --> 00:31:26.910

Supervisor Phillips: Know, and I'm, again, I'm not trying to say that we don't I just met.

284

00:31:27.360 --> 00:31:32.760

Supervisor Phillips: With us considering these changes. We didn't really discuss why you had it the way you had it.

285

00:31:32.970 --> 00:31:40.050

Supervisor Phillips: Is more advantageous to the town to leave it the way it was versus making the changes at some of the counselors suggested we didn't have any of that background.

286

00:31:40.290 --> 00:31:45.000

Supervisor Phillips: I know you guys worked long and hard. That's why I don't want to change on something that you've been working long and how

287

00:31:45.300 --> 00:31:54.630

Supervisor Phillips: That would know input as to why we want to consider changing the increase in it or whatever, without you guys explaining to us. That's what I was looking forward to tonight.

288

00:31:55.890 --> 00:32:08.670

Paul Gage: Thank you very much in. And as always, we thank you know we think can help immensely. We work hand in hand. So I appreciate it. And when and the air there again. I once in a while, we missed stuff. Thank you.

289

00:32:09.420 --> 00:32:18.810

Supervisor Phillips: We appreciate all that you guys do we probably don't say it enough, but you work long and hard all of you, including Matt and everybody. We do appreciate it. Paul okay so

290

00:32:19.800 --> 00:32:29.640

Supervisor Phillips: Where do we go from here. I know there's a process we have to follow. So we have to have a public hearing but it's been so many walk me through what we do next, or have to do next.

291

00:32:30.840 --> 00:32:32.940

Matthew Johnson: Yep, I can do that. Yeah, what you

292

00:32:34.350 --> 00:32:49.230

Matthew Johnson: So we've got a couple of small changes here to make that very easy. And the next thing you really need to do is you've got to have agreement among the town board members that this is what you want to adopt.

293

00:32:50.760 --> 00:32:51.180

Supervisor Phillips: Okay.

294

00:32:52.320 --> 00:32:56.280

Matthew Johnson: And I don't know if this ever got the for Bob finance.

295

00:32:57.600 --> 00:32:59.790

Matthew Johnson: As did Bob can sign off on this.

296

00:33:01.470 --> 00:33:10.080

Supervisor Phillips: I don't know, because that one meeting that you guys were supposed to have when I wasn't here. I don't know what happened after that. That's why we're where we are right now.

297

00:33:10.620 --> 00:33:19.590

Supervisor Phillips: So does the board. We have to have him review it and then if we agree to it we sign it at a board meeting, or do we have to have a public hearing first or what that

298

00:33:19.890 --> 00:33:30.060

Matthew Johnson: Typically typically it's a good idea for him to sort of sign off on this. You don't have to do that, but it's it's highly recommended.

299

00:33:30.750 --> 00:33:32.880

Supervisor Phillips: Okay, so we'd send it to the lawyer first. Okay.

300

00:33:33.720 --> 00:33:35.190

Supervisor Phillips: And then, yeah.

301

00:33:35.250 --> 00:33:39.060

Matthew Johnson: Then the formal process begins at a town board meeting.

302

00:33:41.250 --> 00:33:48.060

Matthew Johnson: One of one of the town board members has to introduce the law to the full town board.

303

00:33:49.500 --> 00:33:56.190

Matthew Johnson: And that sort of starts the process and also that night, you would do this the seeker review.

304

00:34:00.840 --> 00:34:04.110

Matthew Johnson: That's the state environmental quality review assessment.

305

00:34:04.560 --> 00:34:05.400

Supervisor Phillips: Who does that

306

00:34:06.000 --> 00:34:15.480

Matthew Johnson: That the town board does that, but we we can help you with that. That's a relatively simple thing that's just kind of filling out some paperwork.

307

00:34:16.350 --> 00:34:17.730

Supervisor Phillips: sounds complicated, but okay.

308

00:34:18.630 --> 00:34:20.790

Matthew Johnson: It's not as complicated as it sounds.

309

00:34:21.900 --> 00:34:24.840

Matthew Johnson: Kind of a formality and we can help you with that.

310

00:34:25.830 --> 00:34:32.370

Supervisor Phillips: Okay, so we introduce it the law. Somebody introduces it to the board. Do they have to vote on it at that point or not yet no

311

00:34:32.520 --> 00:34:32.970

Matthew Johnson: Not yet.

312

00:34:33.480 --> 00:34:37.650

Supervisor Phillips: Just introduce it to the board if them the copy once Bob reviews. Okay. Yeah.

313

00:34:37.710 --> 00:34:46.350

Matthew Johnson: So when you after you do that and you do your make your, your secret paperwork, then you send it to us. We go County Planning Department

314

00:34:48.780 --> 00:34:50.760

Matthew Johnson: And they do a review of it.

315

00:34:54.570 --> 00:34:55.110

Supervisor Phillips: Okay.

316

00:34:56.550 --> 00:34:57.570

Matthew Johnson: So they

317

00:34:59.130 --> 00:35:04.350

Matthew Johnson: They'll look at it, they might make some recommendations for changes.

318

00:35:07.980 --> 00:35:11.430

Matthew Johnson: I'm guessing that they're not there. They're going to be fine with it.

319

00:35:11.880 --> 00:35:12.360

Okay.

320

00:35:13.590 --> 00:35:17.790

Matthew Johnson: And then after that's over, you hold your public hearing

321

00:35:20.670 --> 00:35:21.660

Matthew Johnson: And if

322

00:35:22.950 --> 00:35:30.030

Matthew Johnson: Nobody you know if the pub you hold the public hearing and there are no overwhelmingly comments saying

323

00:35:31.740 --> 00:35:39.150

Matthew Johnson: You need to change this change something, you know, if, if the public's in agreement, then you can adopt it right after the public hearing

324

00:35:41.490 --> 00:35:55.590

Matthew Johnson: But if a lot of people come to the public hearing and object, then you may want to make some changes. You don't have to, but you may want to depending on what the comments are okay.

325

00:35:58.680 --> 00:36:00.750

Matthew Johnson: And that's, that's the process.

326

00:36:02.040 --> 00:36:05.250

Supervisor Phillips: Then once we adapt it becomes law. Yep.

327

00:36:05.310 --> 00:36:25.350

Matthew Johnson: Once you adopt it, then you, you have to send it to Albany. There's some paperwork. There's a local law adoption form that's got to be filled out you fill that out you send it to Albany and they accept it and they stamp it and then it because then it becomes effective

328

00:36:26.790 --> 00:36:27.150

Supervisor Phillips: Okay.

329

00:36:27.450 --> 00:36:28.980

Matthew Johnson: When they stamp it in Albany.

330

00:36:31.560 --> 00:36:33.210

Supervisor Phillips: So this isn't going to happen. Quick

331

00:36:34.290 --> 00:36:36.570

Matthew Johnson: No, no, it isn't. There's a process.

332

00:36:37.440 --> 00:36:44.520

Matthew Johnson: But yeah, the process is there to get the public, you know, you want to get the public's input in the county's input.

333

00:36:45.750 --> 00:36:45.960

Matthew Johnson: Oh,

334

00:36:46.170 --> 00:36:48.420

Robin Eaton-Novak: Nothing is nothing at all.

335

00:36:48.690 --> 00:36:50.940

Matthew Johnson: No, no. Yeah. Can you hear me.

336

00:36:52.320 --> 00:36:52.920

Matthew Johnson: I can

337

00:36:54.090 --> 00:37:06.150

Codes officer: I'm on your side with microphones like I'll speak louder. I just wanted to ask the town does currently have a moratorium, having to do with solar. As I recall, large scale solar

338

00:37:07.530 --> 00:37:14.550

Codes officer: What, when did they adopt that and what does that mean in terms of the context of this whole project. The revision project.

339

00:37:16.230 --> 00:37:17.160

Matthew Johnson: Yeah, that's it.

340

00:37:18.000 --> 00:37:18.390

Okay.

341

00:37:19.560 --> 00:37:23.460

Codes officer: I'm thinking that's like a six month more a dream, and I'm not sure how close they are to the end of that.

342

00:37:24.210 --> 00:37:29.700

Matthew Johnson: Yeah. Wasn't it what wasn't there a six month and then it was extended another six months.

343

00:37:32.130 --> 00:37:32.880

Codes officer: Laughs And

344

00:37:34.050 --> 00:37:37.380

Codes officer: I'm not sure when they passed the most recent one. Do you remember that very end.

345

00:37:37.860 --> 00:37:47.040

Supervisor Phillips: I'm going to say there's September, October, you can keep track of that. And yeah, I know because I was just gonna say that we don't have six months to

346

00:37:47.400 --> 00:37:55.560

Supervisor Phillips: Play with here even though we did the moratorium for six months. It's probably four months to go. If I were going to be able to get through this and four months.

347

00:37:56.670 --> 00:38:06.330

Matthew Johnson: You should be able to get through the four months. Yeah. I mean, if you can get agreement from the town board in the attorney, then you can start this process in

348

00:38:07.740 --> 00:38:11.670

Matthew Johnson: January and maybe have it wrapped up by March.

349

00:38:13.410 --> 00:38:14.820

Codes officer: Which will be outside

350

00:38:15.930 --> 00:38:16.500

Codes officer: In September.

351

00:38:18.390 --> 00:38:19.920

Codes officer: September, October, November, December.

352

00:38:21.390 --> 00:38:21.840

Codes officer: That's it.

353

00:38:23.790 --> 00:38:38.760

Supervisor Phillips: Well, if we if we catch it early enough, this time covert through us a huge curve. That's why we didn't catch it. If we catch it this time. We can just do an extension of it with the last time we had to do two separate adoptions because we didn't catch it early enough now.

354

00:38:40.110 --> 00:38:43.110

Supervisor Phillips: I'll keep an eye and somebody else would as well. That'd be great.

355

00:38:44.370 --> 00:38:44.640

What

356

00:38:46.020 --> 00:38:58.620

Codes officer: The engine is the same as the doctrine. It's another local law so takes the same time, same effort, but you want to make sure you do

it before the one runs out, which is why it's important to know what when the existing one runs out.

357

00:38:59.160 --> 00:39:12.480

Matthew Johnson: Yeah, that's a good. That's a good point. And, you know, you can you can have special meetings, you can speed up the process. You don't have to do it. Just one thing, a month, you know, obviously, you could you could have a special talent board meeting.

358

00:39:13.980 --> 00:39:15.060

Matthew Johnson: You know that that's gotta

359

00:39:15.450 --> 00:39:17.190

Be. Whoa.

360

00:39:18.900 --> 00:39:19.830

Supervisor Phillips: It has to be what

361

00:39:22.830 --> 00:39:23.910

Codes officer: This one was tonight.

362

00:39:24.450 --> 00:39:36.300

Supervisor Phillips: Yes. No, I don't disagree. I'm I'll look it up to see what it was, but is that, are you saying that if we catch it early enough. We can't get an extension on it. We still have to do another whole law.

363

00:39:38.250 --> 00:39:48.780

Codes officer: You, you, as I understand it, the expansion is by another local law what the point was making sure you have the new one in place before the old one runs out or you

364

00:39:48.840 --> 00:39:49.650

Have a window.

365

00:39:52.200 --> 00:39:54.450

Codes officer: Now, before the new extension.

366

00:39:55.140 --> 00:39:56.760

Okay, you're going to

367

00:39:57.810 --> 00:40:06.150

Codes officer: It's perfectly legitimate to extend moratorium, because you have something definitely in progress, which is what all this is about

368

00:40:07.020 --> 00:40:14.310

Codes officer: A perfectly legitimate to do. Yeah, just do an extension to have an extension. You got to have a reason okay to have something in progress.

369

00:40:15.270 --> 00:40:15.870

Codes officer: But the point is,

370

00:40:16.110 --> 00:40:31.200

Codes officer: You don't want to lapse in there when we, when we current moratorium rooms out and the extension kicks in, or else there is that window or somebody jumping with a permit to do exactly the same thing you're trying to protect against

371

00:40:33.360 --> 00:40:37.020

Supervisor Phillips: So may I can I give you the direction to put together a whole

372

00:40:38.550 --> 00:40:42.840

Supervisor Phillips: Tone, a pair of zoning law packet and forward it to Bob good at first.

373

00:40:44.190 --> 00:40:49.380

Supervisor Phillips: Well, wait and see what he says. And then when he gives a back to us. I can make copies and bring it to the board.

374

00:40:49.830 --> 00:40:50.070

Yeah.

375

00:40:51.210 --> 00:40:52.020

Matthew Johnson: Okay, if you

376

00:40:53.310 --> 00:40:57.570

Matthew Johnson: have his email but maybe somebody, somebody could send it to me, just to make sure

377

00:40:58.290 --> 00:40:59.310

Supervisor Phillips: I got it right here.

378

00:41:20.520 --> 00:41:27.930

Supervisor Phillips: No, I don't have it. It's just, I've just got his name on it. I don't have his thing. Oh, it is. It's capital letter B capital letter G.

379

00:41:29.070 --> 00:41:35.940

Supervisor Phillips: E na NT been that bad at and this is awesome small letters good at law com

380

00:41:38.730 --> 00:41:39.210

Okay.

381

00:41:43.410 --> 00:41:49.740

Supervisor Phillips: I don't know how long it would take him to review it. But if he could get. Do it. Do it fast enough, we might be able to put it out in the December agenda.

382

00:41:50.100 --> 00:42:00.450

Supervisor Phillips: For the board to review with him as long as he's okay with it. And then we could have somebody introduce it to the board and and move from there. I just don't know how long it will take back to review.

383

00:42:04.680 --> 00:42:05.400

Supervisor Phillips: I'm

384

00:42:06.870 --> 00:42:07.920

Supervisor Phillips: Anything else

385

00:42:09.570 --> 00:42:13.140

Supervisor Phillips: Who is, I gotta go back, who is a secret paperwork going to fall under

386

00:42:14.520 --> 00:42:14.820

Supervisor Phillips: That

387

00:42:15.510 --> 00:42:21.900

Matthew Johnson: Technically, that the town board has to do that, but I can do that. I can fill all that out for you.

388

00:42:23.340 --> 00:42:24.960

Matthew Johnson: You just have to sign off on it.

389

00:42:25.860 --> 00:42:33.150

Supervisor Phillips: Okay yeah cuz I don't want to have to even attempt it. I'm not sure what it will say or how to do it. So somebody with experience could do it. That'd be great.

390

00:42:33.570 --> 00:42:34.410

Supervisor Phillips: Yeah, it's just

391

00:42:35.370 --> 00:42:47.280

Matthew Johnson: It's a lot of pages with questions. It basically it's basically paperwork that is asking all of these questions whether or not what you're doing with this adoption.

392

00:42:48.120 --> 00:42:56.670

Matthew Johnson: Of these amendments is going to harm the environment, which is which. It's the whole purpose of doing this is to protect the environment. So right

393

00:42:56.940 --> 00:43:10.890

Matthew Johnson: Right it we're going to say, No, no, no, no, no. And then you just you have to describe what you're doing a little bit and then somebody's got to sign the form, which would be you. Mary and as a supervisor.

394

00:43:13.980 --> 00:43:26.670

Matthew Johnson: And you, the, the, the board members have to agree that do what you're doing is not going to have a negative impact on the environment. So it's, it's pretty it's pretty straightforward.

395

00:43:27.150 --> 00:43:31.380

Supervisor Phillips: Okay, but I appreciate the fact that you're going to do it. So it's done right now going to screw it up.

396

00:43:32.670 --> 00:43:33.060

Matthew Johnson: For you.

397

00:43:33.510 --> 00:43:34.260

Supervisor Phillips: Thank you.

398

00:43:35.850 --> 00:43:36.270

For

399

00:43:38.100 --> 00:43:38.520

Supervisor Phillips: What

400

00:43:40.350 --> 00:43:41.700

Codes officer: God has done before.

401

00:43:42.270 --> 00:43:42.750

Yes.

402

00:43:44.340 --> 00:43:48.000

Supervisor Phillips: Thank you, but I haven't. So now you know why hesitation.

403

00:43:49.170 --> 00:43:51.120

Supervisor Phillips: Okay. Anything else from anybody.

404

00:43:52.590 --> 00:43:57.600

Supervisor Phillips: No. No suggestions or anything. Thank you all for, for, for coming. I do appreciate it.

405

00:43:58.140 --> 00:44:10.740

Supervisor Phillips: And we'll try to get this thing moving forward. But I'll check on find that when we did that last one, I don't have the agenda is here, I'd be able to find it. When we pass that moratorium la I'll find it and I'll get that back to you that information.

406

00:44:11.970 --> 00:44:12.690

Supervisor Phillips: OK.

407

00:44:13.830 --> 00:44:15.960

Matthew Johnson: And I'll get them to Bob.

408

00:44:16.320 --> 00:44:20.400

Supervisor Phillips: ASAP. Okay, thank you so much, everybody.

409

00:44:22.110 --> 00:44:30.030

Robin Eaton-Novak: Thanks to Jim and the Paul actually showed up downtown. I think that's awesome, and I feel bad. I wasn't there.

410

00:44:35.160 --> 00:44:40.260

Supervisor Phillips: Okay, how bad do you feel, Robin. It doesn't mean you're gonna buy us a coffee or something like man, because you're

411

00:44:41.100 --> 00:44:43.230

Robin Eaton-Novak: Not that bad. I mean, I stayed home.

412

00:44:43.380 --> 00:44:44.700

Robin Eaton-Novak: Because I had to work solely

413

00:44:45.210 --> 00:44:55.110

Robin Eaton-Novak: But I think it's crazy that we're having a meeting and the only person that that shows up down there is is Jim in and Paul with the with the zoom right

414

00:44:56.640 --> 00:44:59.520

Robin Eaton-Novak: I don't know, I just, I feel like more of us need to be down there.

415

00:45:02.310 --> 00:45:09.210

Supervisor Phillips: I won't disagree with you, but I didn't get any response from two of the counselors. I had no idea if there was showing this less if they were where they were going to show

416

00:45:09.270 --> 00:45:10.530

Robin Eaton-Novak: I know, I know.

417

00:45:12.450 --> 00:45:17.880

Supervisor Phillips: But we at least got on at my house. So besides we're enjoying coffee and the heat.

418

00:45:18.960 --> 00:45:19.350

Matthew Johnson: Yeah.

419

00:45:19.770 --> 00:45:20.100

Yeah.

420

00:45:21.540 --> 00:45:26.310

Supervisor Phillips: Okay, thank you, everybody. I appreciate it but don't talk to you before we will be talking to you on the 17th.

421

00:45:27.060 --> 00:45:27.960

Codes officer: Know, you'll notice that

422

00:45:29.760 --> 00:45:30.360

Codes officer: The gym.

423

00:45:30.660 --> 00:45:33.030

Supervisor Phillips: Yes. Isn't warm in there, guys.

424

00:45:33.600 --> 00:45:34.890

Supervisor Phillips: Yes, yes.

425

00:45:37.530 --> 00:45:46.140

Supervisor Phillips: Very nice. I'm glad you're comfortable. Next time you come James of bringing my heavy Mac or not. Okay. Let me go into the town gym. Yeah.

426

00:45:47.340 --> 00:45:48.720

Codes officer: Maybe a couple sips of something

427

00:45:50.790 --> 00:45:53.700

Supervisor Phillips: I can do that coffee. I'm sure you're referring to coffee.

428

00:45:54.660 --> 00:45:56.190

Codes officer: Or something. Yes, coffees.

429

00:45:58.980 --> 00:46:00.750

Supervisor Phillips: Thanks, everybody. Thanks.

430

00:46:01.770 --> 00:46:02.670

Supervisor Phillips: Man, yeah.

431

00:46:02.760 --> 00:46:03.240

Matthew Johnson: I'll probably

432

00:46:04.110 --> 00:46:04.530

In a
