Paul G.: Yeah.

12  
00:05:57.720 --> 00:06:01.620

Paul G.: It's basically just a quick down what I figured what the

13

00:06:03.810 --> 00:06:08.430

Paul G.: The only all emotions ever made was he was the author and the

14

00:06:13.200 --> 00:06:14.010

Paul G.: Negative second

15

00:06:17.640 --> 00:06:18.450

Paul G.: All in favor.

16

00:06:20.640 --> 00:06:21.690

00:06:28.470 --> 00:06:32.760

Paul G.: Me see so we're all back. So do you have a report.

19

00:06:33.900 --> 00:06:34.620

Paul Baxter: Oh,

20

00:06:37.080 --> 00:06:39.840

Paul Baxter: Say that toggle is working on, it's a

24

00:07:22.890 --> 00:07:23.520  
Paul G.: I know it's hard to

25  
00:07:26.310 --> 00:07:27.390  
Paul G.: Read. Yes.

26  
00:07:28.920 --> 00:07:29.310  
Paul G.: Okay.

27  
00:07:31.650 --> 00:07:34.980  
Paul G.: Darling dialing in now. So, so we can get better speaker.

28  
00:07:37.530 --> 00:07:40.380  
Paul G.: Yeah, don't get feedback will be OK. OK.

29  
00:07:43.920 --> 00:07:52.440  
Paul G.: I this afternoon. I said Jim burns to see cozy officers report out, Ben, you probably didn't get it.

30  
00:07:54.030 --> 00:07:55.770  
Paul G.: If you might like it.

31  
00:07:56.850 --> 00:07:57.120  
Paul G.: But

32  
00:07:58.320 --> 00:08:01.800  
Paul G.: Anyways, if there's any questions, Jim. Jim, do you happy.

33  
00:08:04.890 --> 00:08:06.090  
Paul G.: Yes. Yeah, yeah.

34  
00:08:07.680 --> 00:08:07.980  
Okay.

35  
00:08:09.810 --> 00:08:10.170  
Paul G.: Okay.

36  
00:08:19.860 --> 00:08:21.450  
Paul G.: Are there any questions for Ben.

37  
00:08:34.320 --> 00:08:35.040

Paul G.: Questions.

38

00:08:47.640 --> 00:08:49.380

Paul G.: Okay, bill says

39

00:08:54.090 --> 00:08:55.110

Paul Baxter: Connecting up now.

40

00:08:59.460 --> 00:08:59.940

Paul G.: Connected

41

00:09:00.630 --> 00:09:03.870

Paul Baxter: Okay, I don't see anybody here he's trying to do it via via phone,

42

00:09:12.990 --> 00:09:13.500

Paul G.: Number. Right.

43

00:09:16.650 --> 00:09:18.930

Paul G.: Okay, yeah, it should be one.

44

00:09:19.860 --> 00:09:26.430

Paul Baxter: Hold on, I can, I can look it up off the website, but the only person who just popped up is Jenna tolls, which I take it is not bill scriber

45

00:09:36.210 --> 00:09:36.570

Paul G.: Because

46

00:09:38.430 --> 00:09:41.640

Paul G.: I figure out the website. Most here it's 844

47

00:09:41.820 --> 00:09:46.620

Paul Baxter: Hold on a second. I can tell you, I can tell you when I got as a session on this.

48

00:09:49.410 --> 00:09:55.890

Paul Baxter: Session number is 844-517-0549. Does that sound familiar

49

00:09:58.290 --> 00:09:58.860

Here, Bill.

50

00:10:02.880 --> 00:10:08.400  
Paul G.: 844517059

51

00:10:11.400 --> 00:10:11.940  
Paul G.: Maybe

52

00:10:20.850 --> 00:10:21.180  
Paul G.: Hi.

53

00:10:31.980 --> 00:10:32.340  
Paul G.: Let's see what

54

00:10:42.120 --> 00:10:46.020  
Paul G.: We can go ahead with Diane Diane is not on there yet.

55

00:10:47.460 --> 00:10:52.260  
Paul Baxter: Yes, yes, she's right now and I'm going to ask you. Here, hold on a second.

56

00:10:53.070 --> 00:10:53.610  
Okay.

57

00:10:56.670 --> 00:10:59.850  
Diane Spaziani: Okay, I'm unmuted. Can you hear me. Yeah, okay.

58

00:11:08.610 --> 00:11:09.540  
Diane Spaziani: Hello everybody.

59

00:11:11.130 --> 00:11:11.640  
Paul G.: Alright.

60

00:11:12.840 --> 00:11:13.410  
Paul G.: The first

61

00:11:14.580 --> 00:11:15.630  
Paul G.: Communications.

62

00:11:17.880 --> 00:11:20.970  
Paul G.: Any of your week your times about

63

00:11:22.200 --> 00:11:22.980

Paul G.: What

64

00:11:24.000 --> 00:11:28.320

Paul G.: The weather's going through with the with their limited use highly

65

00:11:31.770 --> 00:11:32.970

Paul G.: Suggested that we

66

00:11:34.380 --> 00:11:35.820

Paul G.: Get when we're working on.

67

00:11:37.590 --> 00:11:49.770

Paul G.: It would be our zoning is like that that we put in what happened is the town had the Martha got a lot of came with the camps and everything else that that a lot of limited use highways.

68

00:11:51.150 --> 00:12:03.390

Paul G.: And which they do not maintain a lot in the wintertime individual when in one before the planning board and said that he was going to build the camp on this particular role.

69

00:12:05.250 --> 00:12:08.070

Paul G.: And the planning board okay because

70

00:12:09.930 --> 00:12:25.500

Paul G.: He went to camp. And then in it came one time and he demanded that the town called the road because he is, is he now it was full time on the road. I don't know if first has any limited

71

00:12:33.660 --> 00:12:36.870

Paul G.: Yeah, these are these are you can read this.

72

00:12:37.920 --> 00:12:40.560

Paul G.: These are more what they cook. In other words,

73

00:12:41.580 --> 00:12:45.240

Paul G.: Not so much. I, I don't know. They may be the same.

74

00:12:46.380 --> 00:12:52.410

Paul G.: But if they're limited use in other words they wants to solve it so hard. They just don't maintain it.

75

00:12:55.260 --> 00:12:55.530

And

76

00:12:58.470 --> 00:13:02.070

Paul G.: In the whole issue was is that you know what they said.

77

00:13:03.180 --> 00:13:05.310

Is that for so long.

78

00:13:07.410 --> 00:13:08.670

And that would be a

79

00:13:11.100 --> 00:13:13.050

Legal cover today. We're not

80

00:13:14.070 --> 00:13:17.430

Paul G.: Say be off the road, you gotta build

81

00:13:18.510 --> 00:13:22.800

Paul G.: The fire service. You gotta have it will

82

00:13:25.020 --> 00:13:28.410

Paul G.: Stay there and have that in your

83

00:13:30.630 --> 00:13:30.900

Paul G.: Court

84

00:13:34.650 --> 00:13:35.610

Paul G.: It's not your

85

00:13:42.540 --> 00:13:43.200

Paul G.: Example,

86

00:13:49.020 --> 00:13:57.450

Paul G.: You said okay, but it should say like seasonal use only, you know, April, something you know

87

00:13:58.680 --> 00:14:01.860

Paul G.: Something that is not considered

88

00:14:05.160 --> 00:14:06.360

Paul G.: And we don't address that.

89

00:14:07.500 --> 00:14:14.910

Paul G.: Hardly anybody. And I think that was a suggestion, they were making sure we need to consider. All right. Yes.

90

00:14:26.190 --> 00:14:26.400

Paul G.: All

91

00:14:29.190 --> 00:14:29.520

Right.

92

00:14:41.160 --> 00:14:41.520

Paul G.: Thank you.

93

00:14:43.980 --> 00:14:47.340

Paul G.: Like I said, I thought it was important to bring it up just in case.

94

00:14:49.740 --> 00:14:50.430

Paul G.: Just

95

00:14:52.470 --> 00:14:56.370

Paul G.: So like you said, I thought it was something I didn't know

96

00:14:57.450 --> 00:14:58.410

Paul G.: They're called seasonal

97

00:15:30.330 --> 00:15:30.810

Paul G.: We're pretty

98

00:15:36.210 --> 00:15:37.350

Paul G.: Good. Very, very

99

00:15:41.640 --> 00:15:44.040

Paul G.: Good issue or just

100

00:15:48.870 --> 00:15:52.500

Paul G.: Right. And right now, our season, the ones we call them.

101

00:15:57.450 --> 00:15:59.220

Paul G.: For us.

102

00:16:00.330 --> 00:16:02.130

Paul G.: Full time. That's right.

103

00:16:10.410 --> 00:16:10.950

Paul G.: Oh well.

104

00:16:16.500 --> 00:16:18.090

Paul G.: Which are you at

105

00:16:26.460 --> 00:16:29.580

Paul Baxter: All not to interrupt your were you expecting a Steve.

106

00:16:39.180 --> 00:16:41.580

Paul Baxter: All the time your screen is frozen.

107

00:16:48.150 --> 00:16:49.080

Paul Baxter: You're fine. Diane

108

00:16:50.520 --> 00:16:52.110

Diane Spaziani: You look like you're fine, where you are.

109

00:16:52.320 --> 00:16:55.980

Paul Baxter: Yeah but Paul's Paul's is frozen up. Okay.

110

00:16:59.280 --> 00:16:59.910

Paul Baxter: See if I can

111

00:17:00.570 --> 00:17:02.100

Diane Spaziani: Stand. It is gone right now.

112

00:17:03.030 --> 00:17:03.870

Paul Baxter: Yeah, let's

113

00:17:06.000 --> 00:17:08.130

Paul Baxter: See if I can call him on the phone and see if

114

00:17:11.130 --> 00:17:12.990

Paul Baxter: See if I got a phone number for him.

115

00:17:13.740 --> 00:17:19.440

Matthew Johnson: Yeah, Paul. I'm getting really bad audio from the town hall static and it's all broken up.

116

00:17:20.790 --> 00:17:31.890

Paul Baxter: Yeah, when he connects back and I'm going to ask him if he's connected up via cell connection with is probably more likely, or if he's on the Wi Fi, which would, I think, give him a better connection because he's had that problem before

117

00:17:37.200 --> 00:17:38.550

Paul Baxter: I don't see his phone number here.

118

00:17:53.550 --> 00:17:59.250

Paul Baxter: Session. So I would assume that that means that he knows that it's not there, and presumably will try to reconnect.

119

00:18:01.110 --> 00:18:03.030

Paul Baxter: When he does that, I can tell him that

120

00:18:05.970 --> 00:18:06.390

Matthew Johnson: Hopefully,

121

00:18:07.110 --> 00:18:12.240

Paul Baxter: Met. We've had quite a ration people inside. Amazing. The message of people trying to get into didn't belong

122

00:18:12.750 --> 00:18:16.320

Matthew Johnson: Yes, I'm I'm seeing all of those names pop up on my screen.

123

00:18:16.530 --> 00:18:18.030

Paul Baxter: Yeah, we haven't had the brawn James yet.

124

00:18:18.630 --> 00:18:19.800

Matthew Johnson: No, not yet.

125

00:18:21.330 --> 00:18:26.010

Paul Baxter: Right now there to where I haven't sent you. I have very little and Khaled El Ronnie.

126

00:18:27.210 --> 00:18:28.590

Matthew Johnson: Yeah, this, this is not

127

00:18:28.680 --> 00:18:35.340

Paul Baxter: Not people I've seen it. The first meetings before so they didn't show up. But, you know, they would, they tend to be welcomed with the religion.

128

00:18:36.180 --> 00:18:40.560

Matthew Johnson: Yeah, this, this, notice must have been widely shared on various

129

00:18:41.490 --> 00:18:55.080

Paul Baxter: Platforms, I got, I got a message that was oddly was forwarded to me from Felicia that zoom sent Felicia, the link had been posted on Twitter. But yeah, it was not something that I did.

130

00:18:56.250 --> 00:18:56.460

Paul Baxter: Y'all

131

00:18:56.640 --> 00:18:58.620

Diane Spaziani: Saw that too. Okay.

132

00:19:01.680 --> 00:19:05.130

Diane Spaziani: Call. If you want a phone number I can give you a phone number.

133

00:19:05.460 --> 00:19:09.390

Paul Baxter: Okay hold on just a second. Let me get into, I can enter it into my computer here but

134

00:19:11.130 --> 00:19:11.400

Diane Spaziani: It.

135

00:19:12.930 --> 00:19:13.980

Diane Spaziani: may work for something

136

00:19:16.920 --> 00:19:19.080

Paul Baxter: Okay, and what would his number be

137

00:19:20.850 --> 00:19:49.980

Diane Spaziani: Try 6257497 249-774-9777

138

00:19:54.780 --> 00:19:57.720

Diane Spaziani: I can leave and go down and look on the computer and see if I get a different

139

00:19:58.200 --> 00:19:58.590

Age.

140

00:20:01.050 --> 00:20:12.480

Paul Baxter: Okay, well this is Paul Baxter. I'm trying to connect to him because he's up he's dropped out of the zoom session of the parish planning board there. By the Way, Diane, that's his whole number, not his cell phone number, so that when

141

00:20:13.530 --> 00:20:16.950

Paul Baxter: I'm calling him, but I'm connected up to home. So maybe, maybe this

142

00:20:17.400 --> 00:20:18.120

Should tell you

143

00:20:19.560 --> 00:20:20.070

Paul Baxter: Actually

144

00:20:20.550 --> 00:20:23.760

Paul Baxter: Well, Happy New Year. Happy Merry Christmas and a Happy New Year care.

145

00:20:25.620 --> 00:20:29.940

Paul Baxter: So could I possibly get his cell phone number. So I can try to reach him in the session.

146

00:20:31.440 --> 00:20:32.940

Paul Baxter: Sure, yep.

147

00:20:35.370 --> 00:20:35.730

Paul Baxter: Okay.

148

00:20:36.360 --> 00:20:38.580

Matthew Johnson: He's trying to get in. If he's Paul G.

149

00:20:39.090 --> 00:20:42.000

Paul Baxter: Yep, that would be him. He by seven once again.

150

00:20:46.200 --> 00:20:53.280

Paul Baxter: I think he's reconnecting right now. But thank you very much. If I don't get them in. I'll try to give them a call on that number and like you said to have it have a happy new year.

151

00:21:04.710 --> 00:21:13.260

Paul Baxter: Okay, so let's see if I got my security, the security and session settings are in right now where he can start video and unmute themselves.

152

00:21:16.350 --> 00:21:20.460

Paul Baxter: So hopefully you'll be back with us in just a second. I'll ask him to unmute and

153

00:21:23.040 --> 00:21:23.880

Paul Baxter: Hello, Paul.

154

00:21:24.420 --> 00:21:26.160

Paul Gage: Hello. I don't know.

155

00:21:26.580 --> 00:21:35.340

Paul Baxter: What a question for you, Dan mentioned that your audio didn't sound real good. And I'm wondering, are you connected via your cell phone or did you try connecting via Wi Fi.

156

00:21:36.300 --> 00:21:39.180

Paul Gage: I'm hooked up to the to the Wi Fi in the building.

157

00:21:39.480 --> 00:21:42.480

Paul Baxter: Our thing that's good that should give you your better connection. Probably so.

158

00:21:45.000 --> 00:21:46.860

Paul Baxter: Anyway, you're connected back up now and I'm going

159

00:21:46.860 --> 00:21:47.340

Okay.

160

00:21:49.230 --> 00:21:49.650

Paul Gage: All right.

161

00:21:53.340 --> 00:21:55.890

Paul Baxter: And you should be able to restart your video.

162

00:21:58.830 --> 00:22:08.640

Paul Gage: I don't, I don't mind, I don't know if my video start back up again or not fully. I think that's what happens is it dumped it because I'm down to 30 out of 38%

163

00:22:09.270 --> 00:22:12.780

Paul Baxter: Yeah, that might be that might be so you can leave your video off.

164

00:22:13.410 --> 00:22:16.170

Paul Baxter: We can we can imagine, you know,

165

00:22:27.720 --> 00:22:29.850

Paul Gage: We're, we're back up again. So

166

00:22:31.980 --> 00:22:36.540

Paul Gage: Had to drop the I don't know my phone. My phone eaten power.

167

00:22:48.120 --> 00:22:48.510

Yeah.

168

00:22:52.620 --> 00:22:55.440

Paul Gage: We're, we're trying to get bill over on the Wi Fi.

169

00:22:58.320 --> 00:22:58.560

Here.

170

00:22:59.610 --> 00:23:00.540

Yes, yes.

171

00:23:02.370 --> 00:23:03.510

Paul Gage: We can take just a second.

172

00:23:06.240 --> 00:23:10.650

Paul Gage: We've got we gotta stay in touch because this man, he hears me

173

00:23:12.360 --> 00:23:12.930

Matthew Johnson: I'm here.

174

00:23:13.860 --> 00:23:14.820

Paul Gage: Okay, see if I

175

00:23:16.080 --> 00:23:19.050

Paul Gage: Can for you right yeah we'll see here

176

00:23:20.250 --> 00:23:20.640

Paul Gage: Okay.

177

00:23:37.560 --> 00:23:38.160

Paul Gage: I got it.

178

00:23:41.130 --> 00:23:45.660

Paul Gage: I shut my video off so I'm gaining power back a little bit. So at least

179

00:23:48.090 --> 00:23:48.960

Paul Gage: If you're, if you're

180

00:24:06.360 --> 00:24:08.760

Paul Gage: Our tech man is underneath the palm tree.

181

00:24:10.740 --> 00:24:11.700

Paul Gage: In the background.

182

00:24:20.010 --> 00:24:21.000

Margarita there.

183

00:24:22.590 --> 00:24:39.120

Paul Gage: And one for us. I'm telling me numbers again. Is it is right here 844-445-1175 1170549059

184

00:24:40.860 --> 00:24:42.180

Paul Gage: Says bills iPad.

185

00:24:42.570 --> 00:24:44.490

Paul Baxter: Williams iPad and I'm admitting you

186

00:24:46.140 --> 00:24:48.270

Paul Gage: All right, here we go, here we go.

187

00:24:51.420 --> 00:24:52.680

Paul Gage: We're still recording off.

188

00:24:53.640 --> 00:24:54.750

Paul Baxter: Yep, we're still recording. Yeah.

189

00:24:55.140 --> 00:24:55.440

Yeah.

190

00:24:57.810 --> 00:25:00.030

Paul Gage: Okay, you want to use it up your

191

00:25:01.710 --> 00:25:07.650

Paul Gage: Mind right now. I just don't have the video so you can everybody can hear hopefully

192

00:25:09.630 --> 00:25:16.980

Paul Baxter: By the way, for future reference bill if you can call that William scribe his iPad that would help me identify you because right now. It could be

193

00:25:17.460 --> 00:25:28.260

Paul Baxter: Any William in the world. If I didn't know what was you, I probably would have kicked you out because I've already kicked out probably a couple dozen people wanted to connect up to this session. I don't think are legitimate.

194

00:25:30.960 --> 00:25:38.580

Paul Baxter: Throughout an iPhone and iPhone 11 Why did and beans is trying to get in right now, and I'm not going to admit beans.

195

00:25:40.920 --> 00:25:41.340

Diane Spaziani: Beans.

196

00:25:42.000 --> 00:25:43.050

Paul Baxter: Beans BA

197

00:25:45.450 --> 00:25:48.330

Paul Gage: Ba n. So, yeah, that sounds like a

198

00:25:49.410 --> 00:25:50.820

Paul Gage: Person, we're looking for. Okay.

199

00:25:51.840 --> 00:25:52.140

Paul Gage: Well,

200

00:25:52.800 --> 00:25:53.580

Paul Baxter: So we should be back.

201

00:25:54.900 --> 00:25:55.200

Diane Spaziani: Yeah.

202

00:25:56.700 --> 00:26:01.170

Paul Gage: All right, good. Um, does anyone have any other comments.

203

00:26:02.490 --> 00:26:05.730

Paul Gage: Or I'm sorry. Go any communication.

204

00:26:08.250 --> 00:26:08.940

Paul Gage: Hearing none.

205

00:26:12.000 --> 00:26:13.290

Paul Gage: The first thing we do.

206

00:26:14.430 --> 00:26:17.310

Paul Gage: Business. Did everybody see the new schedule the

207

00:26:18.750 --> 00:26:19.080

Paul Gage: Meeting.

208

00:26:20.850 --> 00:26:21.540

Did you study

209

00:26:25.170 --> 00:26:25.800

Paul Gage: We need

210

00:26:27.870 --> 00:26:28.920

Paul Gage: One small correction.

211

00:26:30.510 --> 00:26:32.340

Or five days a week or find

212

00:26:33.390 --> 00:26:33.870

Paul Gage: November.

213

00:26:34.980 --> 00:26:39.120

Paul Gage: 22nd. Yeah.

214

00:26:40.440 --> 00:26:40.830

Paul Gage: Got it.

215

00:26:42.030 --> 00:26:42.450

Paul Gage: Okay.

216

00:26:43.800 --> 00:26:46.050

Paul Gage: Any other. Anything else anybody saw

217

00:26:47.940 --> 00:26:50.340

Paul Gage: A motion to accept the schedule for

218

00:26:52.410 --> 00:26:53.400

Paul Gage: 2021

219

00:26:54.780 --> 00:26:55.170

Second,

220

00:26:56.340 --> 00:26:57.210

Paul Gage: All in favor.

221

00:27:05.880 --> 00:27:08.460

Paul Gage: Yes, yeah. Okay. All right.

222

00:27:09.960 --> 00:27:11.760

Paul Gage: I think, I think the next

223

00:27:13.950 --> 00:27:18.780

Paul Gage: Next a nomination of officers will start in the chair person.

224

00:27:23.250 --> 00:27:25.860

Paul Gage: Record officers are

225

00:27:31.230 --> 00:27:34.920

Paul Gage: Valid for all the president after serving served for

226

00:27:39.690 --> 00:27:46.440

Paul Gage: Any objection motion that the slave officers as it stands for.

227

00:27:50.070 --> 00:27:55.710

Paul Gage: And if no one has any objections. May have a motion to accept that.

228

00:28:07.950 --> 00:28:09.060

Paul Gage: Emotion, and the second

229

00:28:10.110 --> 00:28:10.980

Paul Gage: All in favor.

230

00:28:22.020 --> 00:28:22.440

Paul Gage: Hi.

231

00:28:25.140 --> 00:28:30.330

Paul Gage: I'm Bill scribe Dan McDonald. I got already said I

232

00:28:33.900 --> 00:28:39.240

Paul Gage: Okay, now we have the officer stuff for 2021

233

00:28:40.650 --> 00:28:42.660

Paul Gage: And the other question.

234

00:28:43.890 --> 00:28:45.330

Paul Gage: That came up last year.

235

00:28:47.100 --> 00:28:49.980

Paul Gage: Is the core, I would like to keep Virginia

236

00:28:56.520 --> 00:28:57.210

Diane Spaziani: I second.

237

00:29:00.510 --> 00:29:01.800

Paul Gage: I have a motion and a second.

238

00:29:03.000 --> 00:29:06.960

Paul Gage: Virginia for the recording for the planning board.

239

00:29:23.850 --> 00:29:24.240

Paul Gage: Right.

240

00:29:25.980 --> 00:29:26.160

Diane Spaziani: I

241

00:29:27.690 --> 00:29:28.200

Paul Gage: OK.

242

00:29:30.570 --> 00:29:33.030

Paul Gage: OK, so that takes care of

243

00:29:35.970 --> 00:29:40.410

Paul Gage: All businesses continue to work on updating the comprehensive plan.

244

00:29:42.000 --> 00:29:48.090

Paul Gage: I send it all to you, Max been working on it previously. I don't know if any of you get

245

00:29:50.190 --> 00:29:52.530

Paul Gage: From it, you did. Okay.

246

00:30:18.210 --> 00:30:20.010

Paul Gage: Like this, that it

247

00:30:23.520 --> 00:30:25.260

Paul Gage: Was it was a next step and

248

00:30:27.540 --> 00:30:28.440

Paul Gage: I was thinking I was part of the

249

00:30:31.050 --> 00:30:31.740

Paul Gage: Discussion.

250

00:30:52.830 --> 00:30:54.360

Paul Gage: I can give you my

251

00:31:01.080 --> 00:31:02.250

Paul Gage: Did you get a copy of that.

252

00:31:02.730 --> 00:31:03.510

Diane Spaziani: Yes, I did.

253

00:31:04.020 --> 00:31:05.460

Paul Gage: Okay, you got it. So,

254

00:31:06.540 --> 00:31:06.810

Paul Gage: You

255

00:31:13.980 --> 00:31:15.150

Paul Gage: Please. Thank you.

256

00:31:17.610 --> 00:31:18.180

Paul Gage: Matt.

257

00:31:18.780 --> 00:31:19.440

Yes.

258

00:31:20.790 --> 00:31:26.490

Paul Gage: The question arose have a beer back to God. While we're waiting for Kevin

259

00:31:28.050 --> 00:31:34.050

Paul Gage: Is it can we put something else in the zone pertaining to this these limited use highways.

260

00:31:35.700 --> 00:31:47.220

Matthew Johnson: Um, yeah, let me let me chime in on that what what that was about. In the tug Hill Times article that that is if your town has minimum maintenance roads.

261

00:31:48.390 --> 00:32:10.290

Matthew Johnson: So that's, which I don't think parish does. That's, that's when you actually pass a local law that deems certain roads in your town are going to not be plowed and and only maintain minimum standards. So that's if your town has that we recommend doing that seasonal use zoning.

262

00:32:12.300 --> 00:32:17.370

Paul Gage: Know, we have a number of Happy Valley and we have lost track.

263

00:32:25.980 --> 00:32:32.310

Matthew Johnson: Not, not these aren't these aren't these aren't seasonal roads. These are actually min actual minimum maintenance roads.

264

00:32:33.660 --> 00:32:35.520

Paul Gage: Okay, well the fine.

265

00:32:37.980 --> 00:32:38.190

Paul Gage: Yeah.

266

00:32:38.220 --> 00:32:39.150

Matthew Johnson: We don't mean

267

00:32:40.230 --> 00:32:56.220

Matthew Johnson: Minimum maintenance is if you've actually at the town's actually passed a local law saying that certain roads are going to be minimum maintenance and seasonal roads. There's no law required. That's an annual designation that the highway superintendent makes

268

00:32:58.710 --> 00:32:59.250

So we

269

00:33:02.040 --> 00:33:02.610

Matthew Johnson: Yeah.

270

00:33:03.270 --> 00:33:08.430

Matthew Johnson: Yeah, we, we can look into whether the town has passed a local law.

271

00:33:10.530 --> 00:33:13.800

Matthew Johnson: I can't do that right this right now with my limited

272

00:33:15.420 --> 00:33:22.620

Matthew Johnson: Was here but but i can i can tomorrow. I can see if I can find if there is a minimum maintenance local law.

273

00:33:25.050 --> 00:33:25.920

Paul Gage: All right, and

274

00:33:27.330 --> 00:33:31.470

Paul Gage: And I can pass on. I can pass this information on to the superintendent so

275

00:33:33.030 --> 00:33:38.010

Matthew Johnson: The best, the best thing is if someone could call the highway superintendent and ask

276

00:33:38.220 --> 00:33:42.090

Matthew Johnson: Just ask him. Yeah, there, there are minimal maintenance roads.

277

00:33:43.860 --> 00:33:45.660

Paul Gage: I printed off the article that

278

00:33:48.180 --> 00:33:55.860

Paul Gage: Was in Tokyo time. So I'll just drop that to him. And then I'll come back and see what he thinks about it.

279

00:33:56.490 --> 00:34:07.980

Matthew Johnson: Okay. And yeah, if that if that is something that you, that we would want to change that. I believe the town zoning law has gone to the county for review.

280

00:34:09.630 --> 00:34:10.110

Matthew Johnson: But

281

00:34:11.250 --> 00:34:15.000

Matthew Johnson: It hasn't been adopted yet so it's not too late to change.

282

00:34:15.990 --> 00:34:16.320

Paul Gage: But

283

00:34:16.380 --> 00:34:18.990

Matthew Johnson: We can try to figure out of that would be appropriate.

284

00:34:21.270 --> 00:34:33.810

Paul Gage: Okay. All right. Thank you, Matt. Because that's like he said that was I saw that in a request was on my mind yet so I just brought it up tonight. So yeah, we can see where it goes from there. Okay. The meeting is all yours. Matt.

285

00:34:34.590 --> 00:34:42.240

Matthew Johnson: Okay. Um so yeah what I, what I can try to do is explain what I sent out

286

00:34:44.460 --> 00:34:56.220

Matthew Johnson: And and the and then maybe you could take a look at it between now in the next meeting. We could, we could get it squared away. But what I with everything that you've sent to me.

287

00:34:57.510 --> 00:35:01.080

Matthew Johnson: I'm trying to sort of make some changes to part three.

288

00:35:02.070 --> 00:35:05.100

Matthew Johnson: And then, then I can do part two. And then part one.

289

00:35:06.900 --> 00:35:13.080

Matthew Johnson: But what what I've done with Part three. And that's what I sent out earlier, is I have

290

00:35:14.160 --> 00:35:20.610

Matthew Johnson: Taken what's in place now and broken that down into village in town.

291

00:35:22.020 --> 00:35:25.020

Matthew Johnson: Sounds like that's that's the way you would prefer to have it.

292

00:35:26.790 --> 00:35:32.130

Matthew Johnson: So the first few pages talks about every zoning district in the village.

293

00:35:33.540 --> 00:35:44.880

Matthew Johnson: And then the last few pages talks about every zoning district in the town, whereas before the way it's currently written it just, it kind of ignores the town village boundary

294

00:35:45.720 --> 00:35:48.750

Matthew Johnson: So what I what I've done is broken into village in town.

295

00:35:49.470 --> 00:35:59.550

Matthew Johnson: And then for every zoning district. There is a little you know two paragraphs on each one kind of describing them.

296

00:36:01.560 --> 00:36:03.540

Matthew Johnson: And there are some new ones.

297

00:36:05.040 --> 00:36:11.850

Matthew Johnson: In there, because there are new zoning districts that have been created since the last time this plan was adopted.

298

00:36:13.410 --> 00:36:16.200

Matthew Johnson: So if you, if you, if you're flipping through that.

299

00:36:17.430 --> 00:36:18.600

Matthew Johnson: You'll see that

300

00:36:20.610 --> 00:36:32.790

Matthew Johnson: Now there's, there's the light manufacturing overlay. There's a little paragraph on that and there's the manufactured home park overlay and a couple paragraphs on that.

301

00:36:35.790 --> 00:36:36.480

Matthew Johnson: Also

302

00:36:37.590 --> 00:36:42.210

Matthew Johnson: They'll when it goes in the last couple pages and talks about the town zoning districts

303

00:36:43.320 --> 00:36:50.550

Matthew Johnson: There is, since we since we last did a comprehensive plan. We came up with that rural mixed use zone.

304

00:36:51.750 --> 00:36:54.510

Matthew Johnson: So there's a little discussion at in there.

305

00:36:58.320 --> 00:37:22.920

Matthew Johnson: So I sort of that's all kinda I sent change the language of updated the language as I saw fit and added those new districts and then I tried to take your comments from the lat your prior meetings and put those in. And there was a paragraph that was suggested to be added to the

306

00:37:24.270 --> 00:37:28.380

Matthew Johnson: End of the of the town rural district.

307

00:37:30.660 --> 00:37:42.480

Matthew Johnson: Which I tried to add that in there. And I took that apart a little bit because I thought some sentences would be better in other just when describing other districts

308

00:37:44.010 --> 00:37:46.740

Matthew Johnson: But it's largely packed as the way you sent us

309

00:37:49.530 --> 00:37:53.100

Matthew Johnson: So that my, my advice would be

310

00:37:54.270 --> 00:37:56.370

Matthew Johnson: I'm sorry I didn't get this to you earlier.

311

00:37:58.860 --> 00:38:01.410

Matthew Johnson: I'm sorry, I can't remember, but

312

00:38:01.470 --> 00:38:09.090

Matthew Johnson: Both of those things can have hamper us. But what I'd suggest is is and I emailed that to everybody.

313

00:38:10.770 --> 00:38:23.850

Matthew Johnson: Take that and sort of go read it over and make notes and if you have any questions or comments at maybe at the next meeting. We could try to fine tune that a little bit.

314

00:38:26.040 --> 00:38:26.340

Paul Gage: Okay.

315

00:38:26.850 --> 00:38:34.920

Matthew Johnson: But, but what it is. I think what I have here is, is a great improvement over you know what currently in the current document.

316

00:38:37.080 --> 00:38:37.440

Matthew Johnson: Okay.

317

00:38:38.280 --> 00:38:38.910

Matthew Johnson: Also, I

318

00:38:41.700 --> 00:38:46.260

Matthew Johnson: Get your notes that pertain two parts one and part two of the plan.

319

00:38:46.980 --> 00:38:54.180

Matthew Johnson: And before the next meeting. I'll check out I've looked at those and before the next meeting. I'll try to

320

00:38:55.320 --> 00:39:00.810

Matthew Johnson: incorporate those as best I can into it like into a new updated Part two

321

00:39:03.120 --> 00:39:07.740

Matthew Johnson: Okay, then we can sort of go on, you know, then we can review that and go on from there.

322

00:39:09.450 --> 00:39:14.790

Matthew Johnson: And then the last thing I would have to do it would be update to update all those demographic

323

00:39:16.380 --> 00:39:28.530

Matthew Johnson: Part one, which has the demographics, the charts and the tables, the population, all that stuff. I can start updating that to include the 2010 census. And then, then the

324

00:39:30.300 --> 00:39:31.080

Matthew Johnson: Estimates

325

00:39:32.970 --> 00:39:33.840

Okay, good.

326

00:39:35.820 --> 00:39:36.000

Paul Gage: Now,

327

00:39:36.960 --> 00:39:37.650

Matthew Johnson: Is good so

328

00:39:38.460 --> 00:39:47.100

Matthew Johnson: Yeah, that's how I'd recommend moving, moving forward on this, but you've done a great job. So far, I think, I think you've gone through the whole thing. Am I correct

329

00:39:50.280 --> 00:39:59.580

Paul Gage: Yes, we have the last or maybe last six pages. After the maps are was I noticed there. So I got it right here. It's

330

00:40:01.200 --> 00:40:04.020

Paul Gage: Let me see. I part of it was the

331

00:40:05.070 --> 00:40:09.210

Paul Gage: Part of it was the word we sent out the cards.

332

00:40:12.000 --> 00:40:19.950

Paul Gage: Surveys, yes. Yup. Let me see, we had, we had the maps appendix. Is this what is called

333

00:40:20.670 --> 00:40:28.620

Paul Gage: Okay, we haven't done anything with that because that is the maps and then it goes to

334

00:40:29.670 --> 00:40:30.960

Paul Gage: Appendix B.

335

00:40:32.220 --> 00:40:48.480

Paul Gage: Sure questionnaire summary characteristics that define community community assets strengths and, if so, we're actually getting to that through some of the some of the things we've got our weaknesses and threats.

336

00:40:49.170 --> 00:40:49.740

Yes.

337

00:40:50.910 --> 00:40:51.870

Paul Gage: And young that goes on.

338

00:40:53.880 --> 00:40:54.270

Matthew Johnson: Yeah.

339

00:40:58.320 --> 00:41:09.060

Matthew Johnson: That that that strengths, weaknesses, opportunities and threats. That's when we actually came down and did a special workshop on that. If you recall, but that was a long time ago.

340

00:41:10.950 --> 00:41:13.590

Matthew Johnson: So that was a memory of when we did that.

341

00:41:14.700 --> 00:41:20.610

Matthew Johnson: That's something that you might want to think about doing again, we could do another session like that.

342

00:41:22.110 --> 00:41:27.180

Matthew Johnson: It's kind of tough to do these days because you're you're living, you'd be limited to doing it on zoom

343

00:41:30.330 --> 00:41:33.720

Matthew Johnson: But something you might want to think about

344

00:41:35.880 --> 00:41:47.970

Paul Gage: Okay, all right, because I can as well. I think as we're working on the what you sense that a part three, we can probably read him in there and see if there's anything to be changed.

345

00:41:48.780 --> 00:41:49.200

Okay.

346

00:41:50.670 --> 00:41:51.420

Paul Gage: Well, I like your

347

00:41:53.340 --> 00:41:54.030

Watch.

348

00:41:58.230 --> 00:42:10.620

Matthew Johnson: Yes. Yes. Yep. Yes. This breaks in a village town each each has their own section with each have their own zoning describes each zoning map. So I think this will be a little easier to follow.

349

00:42:15.660 --> 00:42:24.540

Paul Gage: Yeah, I like I said, it's so far we're going. I think we're doing okay your guidance, if it's coming out. I think most happy.

350

00:42:26.160 --> 00:42:26.370

Matthew Johnson: Yeah.

351

00:42:29.220 --> 00:42:30.180

Paul Gage: Good, good.

352

00:42:31.530 --> 00:42:32.370

Paul Gage: We need improvement.

353

00:42:35.310 --> 00:42:36.210

Matthew Johnson: Always right

354

00:42:37.500 --> 00:42:40.410

Paul Gage: Absolutely. Does anyone have any questions for Matt.

355

00:42:48.150 --> 00:42:48.630

Paul Gage: Okay.

356

00:42:50.070 --> 00:42:55.860

Paul Gage: Bill would like to see the map in the back of the of the meeting room here included in our

357

00:42:56.370 --> 00:42:56.730

Matthew Johnson: In our

358

00:42:59.370 --> 00:43:02.220

Matthew Johnson: Map of the whole historic map of the whole town.

359

00:43:03.630 --> 00:43:05.490

Matthew Johnson: Yes, we will add that. Oh.

360

00:43:07.410 --> 00:43:08.730

Matthew Johnson: Yeah. That's a good suggestion.

361

00:43:10.890 --> 00:43:11.190

Matthew Johnson: Okay.

362

00:43:11.220 --> 00:43:19.110

Paul Gage: Right. Yeah, well I know that's been one that's been right on the edge Bridget's works fantastic job with

363

00:43:20.400 --> 00:43:23.190

Paul Gage: Developing that and I just think it's over the

364

00:43:25.350 --> 00:43:25.680

Top

365

00:43:29.220 --> 00:43:31.200

Paul Gage: Of your original power.

366

00:43:35.160 --> 00:43:35.940

Paul Gage: Is closed you

367

00:43:38.820 --> 00:43:39.000

Know,

368

00:43:44.250 --> 00:43:44.730

Paul Gage: There was

369

00:43:47.010 --> 00:43:48.750

Paul Gage: A there's a question on my mind.

370

00:43:51.600 --> 00:43:54.630

Paul Gage: Right now, but I'll send you an email I got a question on

371

00:43:56.580 --> 00:43:57.600

Paul Gage: It quickly.

372

00:43:59.100 --> 00:44:03.060

Paul Gage: A site plan does the does the

373

00:44:04.620 --> 00:44:11.160

Paul Gage: Research. As for me, I can email. Yeah. My question is, we have a site plan in the town where

374

00:44:12.480 --> 00:44:15.420

Paul Gage: They never did anything with it for over a year.

375

00:44:16.080 --> 00:44:25.230

Paul Gage: Yeah, now they sold the piece of property and they sold the site plan with the property.

376

00:44:26.760 --> 00:44:36.450

Paul Gage: So my question is, does the site plan stay with the property or is there a time limit on how long the site.

377

00:44:38.220 --> 00:44:42.450

Matthew Johnson: That the site plan would would go with the property.

378

00:44:43.590 --> 00:44:59.490

Matthew Johnson: Blog, but there would be if nothing's been done in and I'd have to look at specifically at your zoning law. But if nothing's been done by a certain amount of time. I think it's a year, then, then this site plants null and void.

379

00:45:00.840 --> 00:45:06.780

Paul Gage: All right, email you that. And have you look at it says for a timeline.

380

00:45:07.200 --> 00:45:10.290

Matthew Johnson: Yeah, let me let me double check on that for you.

381

00:45:11.370 --> 00:45:12.060

Paul Gage: Thank you, Matt.

382

00:45:15.360 --> 00:45:16.170

Paul Gage: Yes, yes.

383

00:45:18.210 --> 00:45:22.410

Paul Gage: Oh no, it's been two years. I just like I said I was just asking, Matt.

384

00:45:25.680 --> 00:45:26.610

Paul Gage: Stating that it was

385

00:45:30.600 --> 00:45:30.990

Paul Gage: So,

386

00:45:33.930 --> 00:45:35.580

Paul Gage: Is there anything else. Yeah, of course.

387

00:45:36.780 --> 00:45:40.740

Matthew Johnson: That's all I have. But I'll keep working on this.

388

00:45:42.480 --> 00:45:45.930

Paul Gage: Oh, thank you very much. We appreciate all you're doing for us as always.

389

00:45:47.190 --> 00:45:50.340

Paul Gage: Have a good night. But again, thank you very much.

390

00:45:50.850 --> 00:45:53.070

Matthew Johnson: Yep. All right. Happy New Year everybody

391

00:45:53.490 --> 00:45:53.730

Yep.

392

00:45:54.840 --> 00:45:55.650

Paul Gage: Happy New Year.

393

00:45:57.690 --> 00:46:09.510

Paul Gage: Okay, so. And the reason I the question just came up because the land had been sold and and like I can get. I get all this stuff on tax maps and all that.

394

00:46:11.220 --> 00:46:23.850

Paul Gage: And that being said, it brought the question up in my mind, okay, because I found out that when we do a. In other words, Mr tambourine.

395

00:46:25.140 --> 00:46:26.820

Paul Gage: We did a we did a

396

00:46:28.980 --> 00:46:34.830

Paul Gage: It was, it will we allow him to go back to a month. And so it's starting to live with it.

397

00:46:35.850 --> 00:46:42.930

Paul Gage: And that was approved. Well, he is. I'm never going back and now the land is up for sale.

398

00:46:44.130 --> 00:46:44.850

Paul Gage: With a trailer

399

00:46:47.430 --> 00:46:49.350

Paul Gage: And I went and

400

00:46:51.060 --> 00:46:55.860

Paul Gage: Talked to Mike Miller. Yeah, the variant stays with the link

401

00:46:58.080 --> 00:47:01.680

Paul Gage: As well. That's why, that's why this question come up

402

00:47:05.070 --> 00:47:05.370

Paul Gage: Okay.

403

00:47:06.600 --> 00:47:07.170

This

404

00:47:08.580 --> 00:47:08.760

Paul Gage: Is

405

00:47:10.530 --> 00:47:13.140

Paul Gage: All very I've been on the board so

406

00:47:14.280 --> 00:47:28.620

Paul Gage: I've seen so many of those issues crop up and that's why I said I was all. Yeah, I agree. Anybody, any expansion beyond what the Zoning Board that right if you last 20 or 30 feet.

407

00:47:32.040 --> 00:47:32.700

Paul Gage: There's an issue.

408

00:47:34.860 --> 00:47:38.310

Paul Gage: And then it runs and then you create one problem that

409

00:47:40.650 --> 00:47:52.710

Paul Gage: We get out of control. Yeah. So like I said, that is the reason I asked I before in case because the, the company that bought the land, just because

410

00:47:55.710 --> 00:48:08.850

Paul Gage: I, I don't know what their plans are. I just want everything when we get told that they're coming before the planning board to exercise this site plan I want an answer to be ready for them.

411

00:48:09.990 --> 00:48:12.150

Paul Gage: So let's see if that's the reason for the question.

412

00:48:15.000 --> 00:48:18.870

Paul Gage: Here. Yeah, it's been probably by now three

413

00:48:23.340 --> 00:48:24.900

Paul Gage: Well, let's say,

414

00:48:25.920 --> 00:48:34.530

Paul Gage: It's like, it's like what we're going through right now we're just where your ducks in a row and then you pull to pull all the property reports on it.

415

00:48:35.220 --> 00:48:47.430

Paul Gage: And it's, it's still the taxes are being nervous on so excuse me, I've got to have a in this. That's what I told him, I said, I've got to have something I've got to have a beating your name.

416

00:48:47.970 --> 00:48:56.700

Paul Gage: Because we can't allow you to build nothing or give you a permit the trailer. So I somebody could say a gauge on set. I'm going to give up.

417

00:48:59.250 --> 00:49:01.500

Paul Gage: A camper. And it's like, yeah.

418

00:49:02.910 --> 00:49:03.510

Paul Gage: Yeah.

419

00:49:06.420 --> 00:49:23.820

Paul Gage: The only way you can get a letter stating that person owns the property allows you to do this. So you're going to be in charge of all the permitting yada yada yada. And that way we allow the old plan this guy said, you can

420

00:49:25.530 --> 00:49:25.890

Blow

421

00:49:27.810 --> 00:49:31.920

Paul Gage: This you're basically only don't permit, but this is property, but the property.

422

00:49:33.690 --> 00:49:33.930

Paul Gage: Right.

423

00:49:39.720 --> 00:49:39.930

Paul Gage: Now,

424

00:49:43.620 --> 00:49:55.710

Paul Gage: But now I don't see it. In other words, so he comes to us with a letter saying, Here. Mr. See, well it's given me permission to have a camper there for six months.

425

00:49:56.760 --> 00:49:59.820

Paul Gage: How do I know that that signature on that piece of paper.

426

00:50:01.080 --> 00:50:06.900

Paul Gage: Right. Okay, so the next question, an older. Yeah. Okay. All right.

427

00:50:10.110 --> 00:50:11.250

Paul Gage: Very state.

428

00:50:43.980 --> 00:50:48.450

Paul Baxter: Died or gone mute bill if you could activate your microphone. That'd be good.

429

00:50:54.840 --> 00:50:56.730

Diane Spaziani: I can hear you. But I can't hear them.

430

00:50:56.850 --> 00:51:02.100

Paul Baxter: Yeah, I can't hear them. And Bill as is a microphone muted. So if you can hear us.

431

00:51:04.530 --> 00:51:06.930

Paul Baxter: Would be good for bell to unmute his

432

00:51:14.790 --> 00:51:21.360

Paul Baxter: Or I can try. Try phoning in like I did before, now that I actually have his number I can try that.

433

00:51:23.220 --> 00:51:24.390

Paul Baxter: See, let me add this

434

00:52:03.420 --> 00:52:04.620

Paul Baxter: Hey Paul we lost you again.

435

00:52:08.070 --> 00:52:08.550

Paul Baxter: There, Paul.

436

00:52:11.310 --> 00:52:14.670

Paul Baxter: And i think i think he hung up so we can reconnect to the zoom session.

437

00:52:23.490 --> 00:52:29.850

Paul Baxter: We lost you again on the zoom we lost you. Okay, we're not on the zoom session now.

438

00:52:36.720 --> 00:52:37.320

Paul Baxter: Alrighty.

439

00:52:45.030 --> 00:52:49.350

Paul Baxter: Diane and I and Bill's iPad is on, although his is muted.

440

00:53:07.980 --> 00:53:14.550

Paul Baxter: Can hear you on the phone, but I can't hear. You're not present in the zoom session and Bill. Bill scriber his iPad is still muted.

441

00:53:22.860 --> 00:53:23.280

Paul Baxter: Okay.

442

00:53:24.840 --> 00:53:26.100

Paul Baxter: He's working on a damn

443

00:53:28.290 --> 00:53:28.770

Diane Spaziani: Okay.

444

00:53:30.930 --> 00:53:32.730

Diane Spaziani: We're almost to the end of the meeting, Paul.

445

00:53:33.570 --> 00:53:34.110

Paul Baxter: What's that

446

00:53:34.440 --> 00:53:36.690

Diane Spaziani: I said, I think we're almost to the end of the meeting.

447

00:53:37.080 --> 00:53:38.160

Paul Baxter: Oh, good, good. Me.

448

00:54:09.810 --> 00:54:11.700

Paul Baxter: Okay, I'm admitting you to the meeting room.

449

00:54:16.740 --> 00:54:18.900

Paul Baxter: There we go. All you should be live again.

450

00:54:30.210 --> 00:54:31.350

Paul G.: Hello. Hello.

451

00:54:32.160 --> 00:54:32.700

Hello.

452

00:54:35.910 --> 00:54:37.530  
Paul G.: Carefully set this thing down.

453  
00:54:38.940 --> 00:54:39.990  
Paul G.: Okay, we're back.

454  
00:54:42.060 --> 00:54:43.020  
Paul G.: You can you hear us.

455  
00:54:43.590 --> 00:54:44.460  
Diane Spaziani: Yes, yes.

456  
00:54:45.060 --> 00:54:45.510  
Okay.

457  
00:54:46.710 --> 00:54:47.040  
Paul G.: We

458  
00:54:49.290 --> 00:54:50.130  
Paul Baxter: Are still recording

459  
00:54:51.000 --> 00:54:52.530  
Paul G.: Okay, here we go. All right.

460  
00:54:53.580 --> 00:54:57.210  
Paul G.: Is there any other questions to me and the

461  
00:54:58.410 --> 00:55:01.260  
Paul G.: Information that Max on us to work on for the next

462
